

New U.S.
Rocket Is
Success

WASHINGTON, Sept. 18 (UPI) — Newly-developed American rockets have intercepted satellites successfully at altitudes of hundreds of miles, Defense Secretary Robert S. McNamara said today.

McNamara made the disclosure at a news conference elaborating on President Johnson's announcement yesterday that new defenses had been developed to intercept and destroy in space nuclear-armed enemy satellites.

McNamara said electronic devices confirmed that the orbiting satellites were within the lethal range of the warheads designed for the defending weapons.

He also said he was satisfied that the United States could determine when a satellite was armed or should otherwise be considered hostile.

The existence of the highly secret anti-satellite weapons was revealed yesterday by Johnson in a speech at Sacramento, Calif. McNamara spelled out some of the details at the Pentagon before leaving for a major speech in Chicago.

Two defending systems are involved. They presumably are operated by the army from Kwajalein Island and the air force from Johnston Island, both in the Pacific, although McNamara refused to discuss the locations.

The combined cost, McNamara said, has been \$10 million dollars.

He added:

"The two systems have been effectively tested and have intercepted satellites in space, their missiles plunging to destroy them within the destruction radius of the warheads."

"It is especially significant that both the army and air force successfully intercepted satellites in space after 10 days of testing to achieve this capability. The army's system was operational on Aug. 1, 1963, and the air force system on May 29, 1964."

McNamara's Sacramento speech, Johnson spoke in general terms of the new defense systems. He said:

"We now have developed and tested two systems with the ability to detect and destroy any satellite circling the Earth in space. These systems are in place, they are operationally ready and they are on the alert to protect this nation and the free world."

Saturn I Is
Rocketed
Into Space

CAPE KENNEDY, Fla., Sept. 18 (UPI) — A Saturn I, the world's mightiest space rocket, thundered to its seventh straight test-flight success today, hurling into orbit an unmanned model of the Project Apollo moonship.

The flight was the second in a long series of unmanned Apollo flights leading to three-man Earth-orbital missions and eventually a lunar landing. The rocket and spacecraft are early versions of hardware being developed for the moon journey.

The launching was observed today by nine of the nation's astronauts, some of whom may be crewmen on moon flights late in the decade.

The mammoth Saturn I, 15 stories tall and weighing 11,200 tons, blasted skyward at 11:23 a.m. (EST) under the tremendous force of 1.5 million pounds of thrust generated by the world's greatest rocket power-plant.

The rocket's massive cluster of eight first-stage engines trailed a plume of flame the length of a football field as it burned for 10 seconds to shove the payload through the dense lower atmosphere.

The second-stage, fired with a 500,000-pound burst of thrust to push the satellite into orbit.

The national aeronautics and space administration announced 15 minutes after launching that the rocket had performed flawlessly and had the Apollo craft, called "Bull Terrier" because it is a weighted metal shell, had settled into a 135-mile high orbit about 115 to 135 miles high.

King Constantine So Nervous During
Wedding He Had to Blink Back Tears

(See picture on page 8)

ATHENS, Greece, Sept. 18 (UPI) — King Constantine of Greece said he was so nervous during his wedding today he had to blink back tears.

Princess Anne-Marie of Denmark, his bride and queen, was 24 years old and monarch completely at ease in public. She was white-faced and obviously trembling from nerves.

But Anne-Marie, who turned 18 less than three weeks ago, showed only a few momentary signs of nervousness during the wedding ceremony that culminated in a storybook romance.

She was every inch a queen, albeit the youngest in the world. From the moment she entered the church she was completely in control.

The young couple was so obviously in love that the many of the royal guests to room time and again, bride and groom turned to look at each other, smiling as they gazed into each other's eyes.

Hand-in-hand they left the church with a 101-gun salute booming across the sky. The bride, a daughter of the Greek king, was in a carriage drawn by six white horses, they rode through the streets, smiling and waving to the cheering subjects.

White-headed Archbishop Chrysostomos, 64, the head of the Greek Orthodox church, pronounced them man and wife as he set golden crowns on their heads.

The ceremony was held in the metropolitan basilica of the Annunciation. It was ablaze with 10,000 red candles — the only decoration.

Representing the President of the United States was his daughter, Miss Lynda Bird Johnson, 21, who wore a floor-length sheath dress of green silk with a floor-length silk coat of green and white.

PRESIDENT JOHNSON HOLDS daughter of unidentified woman who was among crowd that greeted him Thursday as he arrived at the Hotel Utah in Salt Lake City to visit President David O. McKay of the LDS church. (AP wirephoto)

Johnson Stops in
Utah, Visits McKay

SALT LAKE CITY, Sept. 18 (UPI) — President Johnson made a brief stopover yesterday to pay his respects to David O. McKay, the ailing president of the Mormon church, and invite him to his inauguration. "That's a date," McKay declared. "As a Republican, I wish you the very best." President Johnson told the 91-year-old leader of two million Mormons that he had made his previously unscheduled visit to wish him well and because he always felt better after being in McKay's presence. The President also invited McKay to be his guest at the White House for two or three days next January during the inauguration.

The conversation between President Johnson and the spiritual leader of the LDS church was reported by Sen. Frank E. Moss, D., Utah, Moss, Interior Secretary Stewart L. Udall and M. Eldon Tanner, second counselor in the church's First Presidency, and members of McKay's family sat in on the visit.

The President's sudden decision to visit McKay was announced in Sacramento, Calif., about four hours before his arrival. But the news spread quickly and President Johnson was greeted by large crowds as he drove through downtown Salt Lake City.

About 700 persons, at least half of them youngsters, were at the airport when the President's plane arrived. President Johnson shook hands with about a score of the well-wishers before joining Moss and Tanner in a car for the drive to the Hotel Utah, where McKay resides.

Throngs also crowded around the hotel and President Johnson, his hands badly swollen and scratched from two days of big crowd scenes marked by much hand-shaking, shook still more hands on his way into the hotel.

When he entered McKay's eighth floor suite, the President and the church leader embraced and President Johnson then presented him a medal, a copy of William B. White's "The Professional," a biography of the president, and copies of his speeches on the western trip.

Legion Day
Set Saturday
At Richfield

RICHFIELD, Sept. 18 — Richfield Legionnaires expect a large crowd at the free jackpot rodeo Saturday to be held at Swan's downtown rodeo arena.

The men have been assisted by interested helpers in cleaning the rodeo grounds and caring for stock furnished by Earl (Hutch) Hutchison, former Richfield ranch owner.

After the rodeo the Legionnaires will deliver the stock, including Brahmas, bulls, bucking horses and wild steers, to Hutchison's summer range area near Dietrich.

Carl Riley and Del Haslen, Richfield pickup men for Hutchison, said the fair rodeo and Utah rodeos, are expected to assist with keeping the animals under good control at Saturday's special event.

"Legion day will conclude with a dance at the American Legion hall with music by Manny Shaw's fiddlers."

Bomber Crashes

PORT WORTH, Sept. 18 (UPI) — A 1958 jet bomber crash-landed on a shoulder of a highway and apparently sat down on the machine and was pushed up against the end of the conveyor by sugar being transmitted on it.

Details on the accident were still being worked up Tuesday morning. Overman, who was working with a roller conveyor at the Amalgamated Sugar company, apparently sat down on the machine and was pushed up against the end of the conveyor by sugar being transmitted on it.

The crash site, about 25 miles north of Saguaiche, was reached on horseback since the nearest road is more than two miles away.

Auditorium Pledges
And Sites Reported

Cash payments totaling \$132,092.47 have been received on pledges for the civic auditorium, David Mend, treasurer and chairman of the finance committee, reported to the Twin Falls Auditorium association board of directors Friday. Carl Berz, chairman of the site committee, presented to the board firm options on four pieces of property as possible locations for the auditorium. The properties are on Addison avenue east, just north of Addison avenue west in the western portion of the city, on Blue Lakes boulevard north and just north of Kimberly road east.

Three Found
Dead Aboard
Lost Plane

SAGUAICHE, Colo., Sept. 18 (UPI) — Three persons aboard a missing Idaho plane were found dead yesterday in the wreckage on the snowy slopes of Antoria mountain, Jeff Maberry of the Saguaiche county sheriff's office said.

Maberry said a civil air patrol ground party notified him that Dale H. Homer, 41, pilot from Idaho Falls; his wife, 38, and her father, J. A. Herndon, 76, of Miami, Okla., were dead in the red-and-white plane that slammed into the 15,000-foot peak in south central Colorado.

He said the ground crew reported the plane skidded up the peak for 20 or 30 feet above the point of impact.

The plane disappeared Monday on a flight from Idaho Falls to Miami, Okla., by way of Liberal, Kan. A hangarman working over the central Rockies about the time Homer's plane crossed the mountains.

The crash site, about 25 miles north of Saguaiche, was reached on horseback since the nearest road is more than two miles away.

T.F. Man Is
Injured in
Work Mishap

Jay Overman, 21, Twin Falls, was listed in critical condition Friday in Magic Valley Memorial hospital where he was admitted after an industrial accident early Tuesday morning.

Overman, who was working with a roller conveyor at the Amalgamated Sugar company, apparently sat down on the machine and was pushed up against the end of the conveyor by sugar being transmitted on it.

Health Work
Is Needed

BOISE, Sept. 18 (UPI) — A state health department official says there is a need for more health services in Idaho public schools.

Mrs. Genevieve Merrill, school health coordinator, said schools should consider hiring a physician, school speech therapist, school nurse and special education teachers.

She said Pocatello is the only school system in the state with a school psychologist.

Idaho Falls and Pocatello have speech therapists, she said, and several schools have nurses or a public health nurse who cooperates in the school program.

"If we had more special services personnel in the elementary school systems," said Mrs. Merrill, "we could alleviate many of the problems which are never caught until Junior high."

Incident Reported
In Viet Nam, U.S.
Ships Involved

WASHINGTON, Sept. 18 (AP) — Secretary of Defense Robert S. McNamara said today "preliminary and fragmentary reports" have been received of a nighttime incident in the Gulf of Tonkin involving American naval vessels. "There has been no damage reported by American vessels and no loss of American personnel," McNamara said in a statement. A Pentagon spokesman who read the statement refused to say whether or not it was a shooting incident.

Heart Attack Fatal
To Creighton Nelson

Creighton B. Nelson, 39, advisory agricultural meteorologist at the Twin Falls weather bureau station, died today in a Boise hospital after being stricken with a heart attack in his hotel room. He was born Oct. 11, 1924, in Fresno, Calif. He served in the air force from February, 1943, to November, 1945. At Fresno State college he studied physics, he studied mathematics and physics at the University of California, Berkeley, and was graduated in meteorology in 1948 from UCLA.

Before coming to the local weather station he was first employed at the Fresno weather bureau station in 1948. In October, 1952, he began work with the Minneapolis, Minn., weather station and moved to Twin Falls in November, 1961. He then became project leader of the weather bureau's agricultural forecast in southern Idaho.

An expert in meteorology, he was in charge at Boise and sent news across the southern part of the state to report weather conditions in crop locations.

He was president of Twin Falls Toastmasters club No. 140, a member of the Magic Valley chapter of the American Meteorological society.

Survivors include his widow; three daughters, Kris, Kim and Kari; a son, Scott, and his parents, Mr. and Mrs. Daryel Nelson, Fresno, Calif.

The body will be sent to Fresno, Calif., for final rites.

Truck Is Hit
By Train
Near Burley

BURLEY, Sept. 18 — Jay Martine, 22, of Burley, escaped injury when the freight truck he was driving was hit by a Union Pacific train at 8:35 a.m. today at the crossing near the Idaho Potato Processing plant, where damage was estimated at \$1,000 to the truck and \$700 to the train.

Ore-Ida Buys
Burley Plant
From IPPI

ONTARIO, Ore., Sept. 18 (UPI) — Sale of the Idaho Potato Processing plant, Inc., plant at Burley to Ore-Ida foods was announced Thursday.

Sterling Johnson, president of Idaho Potato Processors, and F. Neppi Oring, president of Ore-Ida, said the sale included substantially all remaining assets of the Burley plant.

Ore-Ida also has operated a plant at Burley, along with its plant at Ontario.

Idaho Potato Processors has produced frozen potatoes at the Burley plant. The firm has no other plants.

The IPPI plant involved in the sale is located adjacent to the plant operated by Ore-Ida west of Burley on highway 30. A report that the two firms had been negotiating sale of the property was confirmed earlier this week in Burley.

New Weapon
Is Denied

MOSCOW, Sept. 18 (UPI) — Premier Khrushchev said today that he said the Soviet Union has a new weapon that can destroy mankind.

Khrushchev said last night scientists had shown him a "terrible" weapon which shows what mankind can do. He said it was not a nuclear bomb but gave no indication what the weapon was.

Members of a Japanese parliamentary delegation that met with Khrushchev Tuesday had reported he told them Soviet scientists had showed him a new, secret weapon that could destroy all life on Earth.

Negro Teen-Agers Have Less
Chance of Finding Jobs Now

WASHINGTON, Sept. 18 (UPI) — A Negro teen-ager has less chance of finding a job today than he would have 10 years ago.

That is the clear message of a special labor department breakdown on teen-age unemployment by color and sex.

Joblessness among all young people from 15 to 19 years old is now about 15 per cent — three times the rate for Americans in all age categories.

But the unemployment rate for Negro boys was running at 24.4 per cent in the first eight months of this year. The rate for Negro girls was a startling 33.6 per cent — or two and one-half times the jobless rate for white girls.

What's more, the labor department study concludes, the gap between white and Negro unemployment rates has been increasing for the past decade.

The labor department report concluded:

"The problems of non-white teen-agers in the labor market are indeed by discrimination. See NEGRO, Page 3, Column 5."

CREIGHTON B. NELSON

Impossible

DALLAS, Sept. 18 (UPI) — Sen. Barry M. Goldwater's promise to end the draft will be impossible to keep, Selective Service Director Lewis B. Hershey said Thursday.

"If you want 2.5 million servicemen you better not depend on volunteers," Hershey said.

Oakley Man Killed
In Truck Accident

BURLEY, Sept. 18 — Jack L. Anderson, 31, Oakley, was killed instantly in a one-vehicle accident at 10:40 a.m. Thursday two miles south of Burley on the old Oakley highway. He was driving a 1964 Chevrolet pickup truck owned by Albert Anderson, also Oakley. The truck, which was going south, hit a bridge railing over a canal, officers said. The vehicle went off the right side of the road, buck across the highway, through the borrow pit and into a pole fence. Two of the poles went through the windshield. One went through the steering wheel, officers said.

Chemistry
Mishap Hurts
Area Student

RICHFIELD, Sept. 18 — Victor Robinson, 16, Richfield senior, was injured when a test tube blew up in a chemistry class at the Richfield high school about 1:30 a.m. Thursday.

He received cuts on his nose and small pieces of glass were imbedded in his face. He was taken to Shoshone hospital by a local physician who took four or five stitches on the side of his nose.

"The youth lives with a brother and sister-in-law," said Mrs. Carl Robinson, Richfield. The instructor, Howard Knowles, said the accident was caused by an overheated test tube. Ordinarily the cork would blow out, he explained, but this time the bottom blew out and the cork stayed in.

Only the individual conducting the experiment is endangered in this type of accident, the instructor added.

Supt. F. R. Briggs said the explosion sounded like a gunshot in the school but there was no damage to the school.

Schlund and Wes Woodall investigated the crash.

Anderson was alone in the truck.

The death was the 20th in Magic Valley so far this year and the eighth in Cassia county.

Mr. Anderson was born Aug. 4, 1933, at Oakley and married Marilyn Evans Aug. 13, 1960. He was graduated from the Oakley high school and had lived in Oakley all his life.

He belonged to the LDS church, the Burley Elks lodge and the Oakley Vigilantes. He See FATALITY, Page 3, Col. 5.

SHOWS STRAIN

TOKYO, Sept. 18 (UPI) — Red China's Communist party structure is showing the strain of a massive quarrel with the Soviet party.

Tax Levy Is Increased In Minidoka

ROPER, Sept. 18 — The assessed valuation will remain the same, but an increase in the total Minidoka county tax levy is reported by County Clerk, August Bohnke.

The total county tax levy is \$1,055,500 compared to \$1,000,000 last year on each \$100 of assessed valuation. The total county and state levy is \$1,375.

In other cities and villages, with the exception of Paul, the tax levy will remain the same as last year.

Levies for last year were: 2.60 at Rupert, 2.70 at Heppner, 1.00 at Ajo, 2.50 at Minidoka. Paul will receive a 60 cent decrease.

The total state fund is 50 compared with 58 last year. The increase came from a decrease in the general fund from 30 last year to 29 and an increase of 29 this year over 58.

The current county expenses fund is slightly higher for school emergency fund up 342 last year to 2872; county indigent fund up 35 over 30 and health services up 10 over 40 for last year.

Expenses lowered included general school fund down to 1,047 compared to 1,058; school equalization .045 compared to .050. Current expenses remain the same at .75 as does the weed department levy at .07. The hospital levy also remains the same at .20 and revaluation the same at .04.

The county fair-levy remains at .15 and the WPT End fire district at .30. The Minidoka county fire district is down to 30 compared to 35.

The special state levies which are set by the state remained the same on sheep commutation, 4.00; livestock disease control, .50; state brand inspection, .10; state inspection, per colony, .05, and bee advertising, per colony, .03.

School district No. 331 levy is 4.00 compared to 4.00 last year. The total 4.80. The breakdown includes 3.60 for general, .20 plant, and .01 bond.

The Minidoka county highway district will have the levy of 1.00 with road and bridge at .70 and post war construction at .20. Last year's breakdown was roads and bridges .50 and construction .20.

No changes appear in the cemetery districts in the county. Rupert, Ajo, and Minidoka remain at .20; Paul at .20 and Heppner at .30.

Magic Valley Funerals

GOODING — Funeral services for Mrs. Judith Ellen (Nell) Smith will be conducted at 11 a. m. Saturday at the Gooding LDS church by Bishop Eldon H. Johnson. Final rites will be held at Thompson chapel, Gooding, from 1 p. m. Friday to 10:45 a. m. Saturday. Final rites will be held in the Kayville-Layton cemetery, Kayville, Utah, at 11 a. m. Monday. Friends may call at the Albertson-DeWahl funeral home Saturday from 9 a. m. until 1 p. m.

TWIN FALLS — Rosary will be recited for Mrs. Jane Koehrsen at 8 p. m. Sunday in White mortuary chapel and requiem mass will be celebrated at 10 a. m. Monday in St. Edward's Catholic church by the Rev. James Edmund Cody. Final rites will be held at Sunset Memorial park.

TWIN FALLS — Funeral services for Mrs. Malie Melvina Overman will be conducted at 1 p. m. Monday in White mortuary chapel by the Rev. Robert O. Johnson. Final rites will be held at Spring Creek, Mo.

Area Woman Dies After Long Illness

JEROME, Sept. 18 — Mrs. Malie Melvina Overman, 82, Jerome, died at 7:15 p. m. Thursday in St. Benedict's hospital of a long illness.

Overman was born May 18, 1882, at Squires, Mo., and was married to Marion B. Overman on Feb. 7, 1904, at Squires. They moved to Twin Falls in 1936. She was a member of the Nazarene church of Twin Falls.

Survivors include three sons, Lloyd Overman and Burne Overman, both Jerome, and Robert Overman, Boise; two daughters, Elva Bunyard, Avondale, Ariz., and Lorene Stoll, Glendale, Calif.; a sister, Mrs. Minnie McGill, Ajo, Mo., and Mrs. Mary Duff, Twin Falls; two brothers, Claude Miller, Ajo, and Elmer Miller, Exeter, Calif.; and 15 grandchildren.

She was preceded in death by her husband and five children.

Funeral services will be conducted at 1 p. m. Monday in White mortuary chapel by the Rev. Robert O. Johnson. Final rites will be held at Spring Creek, Mo.

Mrs. Hayes Speaks for Valley Meet

EDEN-HEALINGTON, Sept. 18 — Mrs. John E. Hayes, Twin Falls, spoke on "The Image of the PTA" at the annual teachers' reception Wednesday at the Eden-Healington PTA.

Mrs. Hayes said that the PTA image is being projected all over the world as a group of individuals united in a common cause.

She said that the PTA is a group of individuals who are not adjusted and become a part of the community. She said that the PTA is a group of individuals who are not adjusted and become a part of the community.

The Codas, composed of Mrs. Irving McDonald, Mrs. Eugene Blais, Mrs. Marion McClain, Mrs. W. H. Hargan, Mrs. Rex McClain and Mrs. Dexter Watkins, sang. They were accompanied by Mrs. Ode Strain.

Teachers, who were escorted by Dr. L. T. Utterback, superintendent of schools, PTA officers and chairman were introduced by Mrs. Cochran. Herman Hargan introduced the board members and presented gifts to Ralph McClain and Clyde Montgomery, who retired from the board last year.

William Brown, membership chairman, reported 170 persons joined the Valley PTA at the reception.

Teachers were decorated for the potluck dinner with Indian motifs. Programs were colorful miniature Indian hand-dresses with the year's program and school directory being read in the shape of a teepee. The front of the table was decorated with a banner of Indian maidens. Fall flowers completed the table decor.

The piano recital featured an Indian chief and full regalia and an Indian tepee.

A corage or boutonnieres of fall flowers was presented to each teacher upon arrival. About 200 persons attended the reception.

Auditorium

(Continued From Page One)

It is vital to success of the project. Berg reported the site committee has researched more than 25 places of property in all areas of the community. The Valley properties on which options were presented meet all necessary requirements for utilities, access and, especially, the limitations of budgeted funds for the property. The committee reported.

The board appointed a committee to meet with representatives of the board of trustees of the school district to explore possibility of building the auditorium-convention facility in conjunction with the schools. This meeting was to be arranged as soon as possible.

The board reviewed the recent action of the city commission in rejecting an election to place the building in the city park.

The auditorium directors will meet again soon to review the work of the architectural and design committee and to explore the building details to the site under consideration.

Driver Cited

BUHL, Sept. 18 — Thomas Rex Miller, 32, Buhl, was cited for backing without signal after he backed his 1953 Chevrolet from a parking space on Main street, and it collided with an oncoming 1961 Chevrolet driven by Fred Jarney, 40, route 3, Buhl, at 8:30 p. m. Wednesday. Damages were estimated at \$200, according to Buhl city police.

Weather, Temperatures

MAGIO VALLEY — Frost and spotty freezing temperatures likely tonight. Protective measures advised. Fair today, tonight, and Saturday. Westerly winds 15 to 25 miles an hour with occasional strong gusts today, and tonight, and Saturday. Highs today in 60s, Saturday 50-70; lows tonight 25-35, except Camas prairie highs tonight in 50s, Saturday in 60s; lows tonight in 20s. Outlook for Sunday mostly cloudy and warmer. Temperatures at 8 a. m. at Jerome, 48; at T. F., 48; at Buhl, 43; at Castelfield, 42; at Gooding, at noon, 54; at T. F., 48; at Buhl, 43; at Castelfield, 42; at Gooding, at noon, 54. High temperatures four-inch 57, eight-inch 55, 20-inch 61, 36-inch 62; three-inch level at Buhl 61, at Castelfield 60.

FIVE-DAY FORECAST

The mean pressure pattern aloft for the next five days shows low pressure in the Mississippi valley states and high pressure in the eastern Pacific. A resulting cooler northwesterly flow of air will be predominant during a part of this five-day period.

Temperatures over the valleys of southern Idaho will average from near normal in southwestern valleys to from three to five degrees below normal in southeastern valleys. Lower daytime temperatures through much of the remainder of the period with warmer days into the first of next week.

Thunderstorms today, the earliest in the season so far this fall, will occur in eastern parts of Magic Valley with hard freezes expected in the colder spots in Magic Valley. Nighttime temperatures will be slow to moderate, but will undergo a warming trend through Wednesday. Normals for this period are Gooding 77-64; Twin Falls 77-61; Buhl 77-61; and Castelfield 77-61.

Rainfall moving across southern Idaho will continue to be held to a minimum. The next system entering the Intermountain region on Sunday will be quite weak, giving some cloudiness but little in the way of precipitation. Little or no rainfall is expected over the valleys of southern Idaho through Wednesday.

Temperatures over the valleys of southern Idaho will average from near normal in southwestern valleys to from three to five degrees below normal in southeastern valleys. Lower daytime temperatures through much of the remainder of the period with warmer days into the first of next week.

Twin Falls News in Brief

The youth class of the First Methodist church will hold a potluck supper at 5 p. m. Sunday at the Marie Stansbury home, 223 Birch avenue west. All members and friends are invited. Those attending are asked to bring TV trays and chairs.

Morningside PTA executive will meet at 7 p. m. Monday in the faculty room. After the meeting the entire organization will meet at 8 p. m. in the school auditorium. Teachers and new officers will be introduced. This will be a get-acquainted night.

Thomas H. Barnes, son of Mr. and Mrs. Walter C. Schroeder, 661 Second avenue north, has been promoted to assistant third class at Keesler, Miss.

Walter Haffner, 455 Jefferson street, has been admitted to the Twin Falls Clinic hospital for surgery.

Twin Falls unit of the American Contract Bridge League met Thursday night at the American Legion hall for monthly masterpoint play. Winners were Mrs. J. C. McMillin and Mrs. H. E. Burgess; first, Mrs. H. E. Burgess and Max Wood; second, Mrs. J. C. McMillin and Mrs. H. E. Burgess; third, Mrs. J. C. McMillin and Mrs. H. E. Burgess; fourth, Mrs. J. C. McMillin and Mrs. H. E. Burgess.

Edna state police sponsored singing in days will be held Saturday and Sunday at the Holmer farm. The public is invited. A small fee will be charged. Tents will be furnished.

Valley Traffic Courts

James K. Lash, 47, route 3, was fined \$10 and costs and assigned three violation points by Judge Robinson for driving on the wrong side of the highway.

Erwin W. Braves, 47, Second avenue east, was fined \$10 and costs by Judge Robinson for following too closely.

Michael Owen Ward, Murtaugh, forfeited a \$15 bond and was assigned three violation points by Judge Robinson for a red light violation.

Henry R. Peterson, Murtaugh, was fined \$10 and costs and assigned three violation points by Judge Robinson for a red light violation.

Robert O. Gilley, Murtaugh, forfeited a \$15 bond and was assigned three violation points by Judge Robinson for a red light violation.

William B. Sturgill, Piler, was fined \$100 and costs by Judge Robinson for driving on a suspended driver's license.

Arlylene D. McKee, route 3, was fined \$10 and costs and assigned three violation points by Judge Robinson for speeding.

She was fined an additional \$5 and costs by Judge Robinson for no stoplights or license plate lights.

Search Ends for Mother of Man Killed in Blaze

Twin Falls police, who were looking for a woman who was killed in a cabin fire near Hood River, Ore., early Wednesday morning, were notified Thursday by a relative living in Twin Falls that the woman's mother is now residing in Blackwell, Okla.

The victim was Oene Marquardt, a fruit picker employed on the Dan Hanner's ranch southeast of Hood River. Police in Oregon said two other employees on the ranch were being questioned regarding a reported argument Tuesday night prior to the fire.

Mrs. Marquardt's mother was earlier reported to be living in Twin Falls, but police were notified by her sister, who read a story in Thursday's Times-News concerning the fire, that she lives in Oklahoma.

Mrs. Koehrsen Taken by Death

Mrs. Mary Jane Koehrsen, 70, Twin Falls, died Friday morning in the Jerome nursing home.

Mrs. Koehrsen was born Dec. 15, 1894, in Billwiler, Minn., and was married to Lewis Koehrsen in More, Minn. She moved to Idaho two years ago from Everett, Wash., and resided in Mountain Home before moving to Twin Falls. She was a member of the St. Edward's Catholic church, Twin Falls.

Survivors include one brother, J. B. Hayes, Twin Falls.

Rosary will be recited at 8 p. m. Sunday in White mortuary chapel and requiem mass will be celebrated at 10 a. m. Monday in St. Edward's Catholic church by the Rev. Magr. Edmund Cody. Final rites will be held at Sunset Memorial park.

Rood Service Officers Elected

Bonnie Stevens was elected president of the Idaho School Food Service association at the first meeting of the season at Washington elementary school.

Other new officers are Loraine Small, vice president, Doris Rutherford, secretary, and Ollie Rutherford, treasurer.

After the business meeting Bonnie Stevens reported on her trip to Portland in August.

Cookies and coffee were served by the Washington school cooks.

Next meeting will be Oct. 6 at the Bickel school.

Mrs. Peters, 84, Dies in Twin Falls

Mrs. Johanna Peters, 84, 330 Sixth avenue east, Twin Falls, died Friday morning in the Twin Falls Clinic hospital.

She and her husband, Gerrit L. Peters, came to Twin Falls in 1910 from Wisconsin. They opened a general merchandise store at Amsterdam, south of Twin Falls, in 1912, and also operated the Holland Realty company at Amsterdam. They moved back to Twin Falls about 1940. Mrs. Peters was a member of the Twin Falls Presbyterian church and the women's association of the church.

She was born Nov. 25, 1879, at Alto, Wis.

Survivors include her husband; one son, Leonard Peters, Holister; two daughters, Mrs. Janet Carter, Twin Falls, and Mrs. Margaret Strickling, Buhl; one sister, Mrs. Guy Peters, Twin Falls, and one grandchild, and four great-grandchildren.

White mortuary will announce funeral services.

Death Takes J. Fairchild

RUPERT, Sept. 18 — James Alfred Fairchild, 60, whose home is 600 W. Main street, died Friday morning in Casals Memorial hospital, Burley, of a long illness.

He was born March 1, 1904, at Morgan, Colo., and came to the Rupert area in 1908 with his parents who settled on the Minidoka dam project. His parents were among the first settlers in the area, coming to Rupert in a covered wagon.

Mrs. Fairchild also worked on the project. He was employed by the Amalgamated Sugar company for 15 years and for J. H. Simpson firm, Heppner, for six years. He operated a farm in between this employment.

On Aug. 13, 1925, he married Lois Smith at Fairfield.

Survivors include his widow; four sons, James A. Fairchild, Jr., and Byron Fairchild, both Rupert; Donald Fairchild, Tujunga, Calif.; and David Fairchild, with the U.S. navy. Mrs. Fairchild has one daughter, Mrs. Guy Smith, Burley; aunt, Mrs. Maggie Perkins, Burley, and seven grandchildren.

Funeral services will be announced by the Walk mortuary.

Blaze Destroys Straw, Trailer

RUPERT, Sept. 18 — A fire of undetermined origin destroyed 100 bales of straw and a hay trailer Thursday morning on a county road six and one-half miles northeast of Rupert. Damage was estimated at about \$500.

Emanuel Kerbs reported he was hauling straw on a hay trailer pulled by a Massey-Ferguson diesel tractor when he saw flames coming from the front part of the load. Before he could stop the tractor and unhitch the trailer, the fire had engulfed the straw bales.

The Paul volunteer fire department was called. In addition to the straw and trailer the rear tires of the tractor were damaged.

Bridge Results Reported in T. F.

Magic Valley Duplicate Bridge club met Wednesday afternoon in Burgess hall.

North-south winners were Mrs. Harvey Wright and Mrs. Burgen McCoy, first; Mrs. J. O. Humphrey and Mrs. A. W. Francis, second; Mrs. Elva McKee and E. C. Montgomery, third.

East-west winners were Mrs. Paul Taber and Mrs. Vern Barnard, first; Mrs. A. L. Johnson and Mrs. W. H. Swope, second; and Mrs. O. H. Wehrlich, and Mrs. D. R. Tuley, third.

The fall bridge masterpoint play party will be held Wednesday.

Seen Today

Richard Sheppard, pastor of the Twin Falls office of the Idaho State Police, will be seen today at the office of the Idaho State Police, 100 W. Main street, in connection with the investigation of the death of a woman who was killed in a cabin fire near Hood River, Ore., early Wednesday morning.

Survivors include one brother, J. B. Hayes, Twin Falls.

Rosary will be recited at 8 p. m. Sunday in White mortuary chapel and requiem mass will be celebrated at 10 a. m. Monday in St. Edward's Catholic church by the Rev. Magr. Edmund Cody. Final rites will be held at Sunset Memorial park.

Negro

(Continued From Page One)

and by lower educational attainment. The per cent of non-white teen-agers in school is less than that of white youth, and often the educational non-whites do obtain is of inferior quality.

Even among high school graduates the employment rates for non-whites is about double that of whites.

Of course all teen-agers having more trouble than work because of the "stigma" of the postwar "baby boom" is coupled with the decline in the number of jobs available for them in the unskilled and semi-skilled categories.

These are the jobs many youngsters obtain because they require little education, training or skill—the labor-departments report said.

Fatality

(Continued From Page One)

was a veteran of the Korean war.

Survivors include his wife, two sons, David Anderson and Monte J. Anderson, and two daughters, Nancy Sue, all Heppner, and Mrs. Elva Anderson, Jr., Burley; two sons, Mrs. Colleen Adams, Twin Falls, and Helen Curtis, Burley; two brothers, Tom M. Anderson and Gordon H. Anderson, both Burley, and maternal grandmother, Mrs. Lulu Anderson, Burley.

Funeral services will be announced by the Payne mortuary.

Preston Man Is Hurt in Crash

RUPERT, Sept. 18 — Howard Hail, 70, Preston, was listed a fair condition today in Memorial hospital with injuries received in a two-car accident Thursday afternoon at a crossroad intersection two miles west and three miles north of here.

The 1960 Buick Wildcat, a light-colored sedan, was driven by Walter Rogers, 44, Rupert. Hail was cited for failure to stop at a stop sign. Damage was estimated at \$100 to the Buick and \$200 to the Ford. Rogers was not injured, according to sheriff's office.

HIGHFIELD, Sept. 18—A one-day Boy Scout fund drive is planned for Saturday at Highfield. Everett Ward, drive chairman, announced Thursday after a meeting Wednesday night of drive capitalists at the LDS church.

Peter Schmidt and LaMar Jones are neighborhood chairmen as well as solicitors. Captains are Theo B. Brulii, Verlyn King, Bruce Sorenson, and Odell Chaffield.

Highfield quota is \$500.

Ten dollars is required to sustain one boy in Scouting activities each year. It was pointed out Richfield has one Boy Scout troop and two Cub Scout packs. Lack of leadership is keeping the Explorer troop inactive at present.

Mr. and Mrs. LaMar Jones will represent Richfield at the drive wind-up supper Saturday evening at the Elks club, Twin Falls.

"We happened to be passing through Twin Falls-July 31-and ~~though we were tired and worn~~ out, it became one of the high points of our vacation, which covered eight states and 4,000 miles," wrote Ray Rogers, Albuquerque, N. M., in a letter to the Twin Falls Chamber of Commerce.

It was a chain of events due to the helpfulness and friendliness of the man at the small park where we were staying, Mr. Hunter, I believe. It was through the lady and the help-yourself-laundry, the Norwegian village, that we ended up going to the square dance festival being held there," he continued.

Said Mr. Rogers, "We wish to thank the many fine people that made it possible for us to enjoy such a wonderful evening. If any of the fine people in that area are possible to attend the New Mexico state festival May 6 and 7 in Albuquerque, next spring, please get in touch with me and I will do my best to make you feel as welcome as you made us feel."

This letter from the Rogers family is only an example of those received at the Chamber of Commerce.

Many letters of appreciation are received regarding the park at Shoshone falls maintained by the city. Travelers remark on the excellent campgrounds and especially the officer who maintaining safety and assists the campers in finding a suitable location to spend the night.

The letters received probably represent the many who do appreciate this area and its people and don't voice their thanks in written form. Mrs. Ross Prather, chamber office secretary remarked.

BRUNEAU, Sept. 18—The final high cowboys' association and Interstate Rodeo association approved show is being planned for 1:30 p.m., Saturday and Sunday at BrunEAU. The points will be compiled and the year's winners will be decided afterwards. —

Sept. 18—The 33rd annual BrunEAU Roundup.

Rodeo producer contracting the show is Prunty's Diamond A, Charleston, Nev., with Ivan Polard, Bar, doing the announcing, Curly Heath and his son, Eddie, as clowns.

Eight events include saddle bronc, bareback riding, calf roping, team roping, steer wrestling, girls' barrel racing and kids' pony riding.

A cowboy dance will be held Saturday evening in the American Legion hall.

151 ROSE ST. TWIN FALLS 733-2179

BOISE, Sept. 18.—Evidence that drivers were speeding or had-been drinking was reported in more than half of Idaho fatal traffic accidents during the first six months of the year.

A report by the department of law enforcement yesterday said there was evidence of speed in 49 of 89 accidents, whether the drivers had been drinking.

"Third on the list was driving to the left of the center line, 14 accidents, followed by failure to yield right of way, 10. Improper turns, 10, and failure to design and improper turns were blamed for three each, and seven were attributed to "other improper driving."

Of the 89 highway deaths compared to 79 in 1962, the death rate was up 49 per cent per 100.

Boundary, Butte, Caribou, Clearwater, Elmore, Latah, Lemhi, Payette, Power, Shoshone at Valley, one each.

Fourteen cities were without fatal accidents in the first six months: Adams, Camia, Bear Lake, Clark, Franklin, Fremont, Gooding, Jefferson, Lewis, Lincoln, Madison, Oxnelt, Tetona and Washington.

GRADUATED WITH HONORS

HEYBURN, Sept. 18—Alma W.C. McDonald, W. Lee, son of Mr. and Mrs. Casper E. Lee, Heyburn, has been graduated with honors from the technical training course for U. S. air force aircraft mechanics at Amarillo, Tex.

The number of fatal accidents was up only nine per cent, but there was a rise in the average number killed per accident.

Total accidents were up from 18,942 to 19,335, and injuries from 3,703 to 3,773.

Accidents within city boundaries accounted for 29 deaths and those outside for 73. Accidents in towns-and-cities—were up six, those in rural areas up 17.

Ada county had the most deaths, 18.

Next came Nez Perce with nine, Collema, eight, Bannock and Canyon, each seven, Bonneyville and Owyhee, six each, Blingham, five, Cassia, four.

Bonner, Idaho, Minidoka and Twin Falls had three each. Blaine, Bonewah, Custer, Gem and Jerome had two each, and

JEROME, Sept. 18.—The clerk's financial report was heard at the meeting of the board of trustees of Jerome school district No. 261 Monday night.

The superintendent's report of Sept. 1, enrollments and transfer of students, was read. Budget recommendations made by the superintendent were authorized by the board.

Teachers hired were Eleanor Nicholson, second grade, Paul City Opal Howell, fourth grade, Alice Johnson, fifth grade, and a special teacher, high. Eleanor Lipscomb, library, half-time, senior high and Slater Mary Cornelia, nursing education.

In other action, the board ap-

BOISE, Sept. 12 (AP) — A Boise attorney says the proposed water development amendment to the state constitution would result in competition with private activities if approved by the voters in November.

But Eugene H. Anderson also told attorneys representing the Third District Real Association the amendment would provide new concepts of water use as well as additional state activities.

Anderson said the amendment would give the state authority to legislate that in July, must be sufficiently broad to provide appropriation and control of water by the state for uses other than the basic recognized domestic life use, irrigation, mining and manufacturing.

He said it is of sufficient magnitude to put the state in development and operation of hydroelectric projects, development and operation of recreation projects involving use, development and operation of water projects for fish and wildlife and all other projects involving use of waters of the state."

Direct competition, with private individuals and corporations would be made in the areas of water appropriation and use for water for irrigation, hydroelectric power, domestic purposes and mining and manufacturing.

And, he said, authority to perform the basic functions of the U. S. reclamation service would be retained for irrigation and generation of hydroelectric power.

CASPER, Wyo., Sept. 14 (AP)—Gary Morris, 13, was injured fatally yesterday when the motor scooter he was riding collided with an automobile near the city limits.

The youth died in a hospital about three hours later of internal injuries.

News Around Idaho

IDAHO FALLS, Sept. 18 (U.S.)—Members of the intermountain section of the American Works Association met in Idaho Falls Sept. 23-25, according to a statement from Idaho Falls; chairman of convention arrangements. Between 100 and 150 persons are expected to attend.

POCATELLO, Sept. 18 (U.S.)—Two men held in Kansas City, Mo., have confessed to the murder of a Pocatello superintendent of the Idaho State Penitentiary and Marvin E. Brown said they ran into trouble, wrecking their car a few blocks from the scene. Pocatello police were told that Hamilton said he wanted to their motel, just six blocks from the store. But Brown said he lost his way, took to the hills and walked 24 hours before turning up in Pocatello. He took a freight train to Salt Lake City, later meeting Hamilton there.

POCATELLO, Sept. 18 (U.S.)—Managing director Wade Guatin of the Idaho Credit Union league has announced the league plans to offer "a more comprehensive bill" on credit unions to the legislature. Guatin said present state law is sketchy. He said the league's bill would be modeled on the federal credit union act.

POCATELLO, Sept. 18 (U.S.)—Dr. Stanley J. Heywood, dean of the Idaho state university college of education, will participate this month in an exchange of educators between the United States and Pakistan. Dr. Heywood will travel to Pakistan, which he will leave Sept. 23. He is sponsored by the American association of colleges for teacher education and the U. N. agency for international development. His visit will be returned later by a Pakistani educator who will spend six to nine months at ISU, which Dr. Heywood said was one of six U. S. colleges selected to participate in the program.

IDAHO FALLS, Sept. 18 (U.S.)—George Hansen, Republican candidate for congress, charged today that "my opponent in the second district should be known as 'Generous Ralph,' because he had been so good to himself this year." In a campaign swing through the upper Snake river valley, Hansen told a breakfast gathering at Anthony and lunch group at Elway that the incumbent representative voted for a \$7,500 pay raise for himself, boosting his salary to \$30,000. "In addition he voted himself another \$4,000 in staff allowances," Hansen said.

BOISE, Sept. 18 (U.S.)—A Boise mother issued a public plea yesterday asking her two teen-age daughters to come home. Mrs. Charles Crawford said the girls, 15 and 17, were missing since evening. She said she believed they headed for Nevada. She said she would send them money to return home if they called collect.

BOISE, Sept. 18 (U.S.)—Idaho produced nearly half the nation's silver last year and remained the top silver-producing state. Government figures reported by the state department of commerce and development showed production of 16.7 million troy ounces, and dollar output of 21.5 million dollars. The other 17 silver-producing states were credited with total production of 18.5 million ounces.

POCATELLO, Sept. 18 (U.S.)—A final application for matching Hill-Burton funds to help build a new St. Anthony hospital building was being read yesterday. The hospital administration submitted a preliminary application for the federal money early in July and began revising it after a meeting with state health officials and the architects for the proposed new building. The hospital will ask for \$225,000 for construction of the 1.6 million dollar 100-bed hospital. A community fund drive has pledged \$418,000. This will be supplemented by the mortgage on the hospital property to match the federal funds.

BOISE, Sept. 18 (U.S.)—Idaho Power company has awarded contracts totaling 7.5 million dollars for generators and turbines for its 425,000 kilowatt Hells canyon dam on the Snake river. Westinghouse Electric corporation, Pittsburgh, is to supply three generators and Newport News Shipbuilding and Dry Dock company, Newport News, Va., three turbines. J. P. Emery, vice president and general manager, said the power units are among the largest of their type ever built. The generators will weigh about 750 tons each and the turbines about 700 tons each. It will take a total of over 200 rail cars to carry them. Delivery is scheduled in 1966 and 1967.

BOISE, Sept. 18 (U.S.)—The bureau of land management announced today it will offer for sale at public auction Dec. 2 in Boise a 280-acre tract of land about five miles northwest of Melba, in Canyon county. The bureau said the area includes about 110 acres of land suitable for irrigated farming and it said underground water likely is available for pumping from deep wells. Appraised price of the 280 acres was set at \$9,000.

WALLACE, Sept. 18 (U.S.)—A Montana man died yesterday of injuries received when he fell 50 feet from a railroad trestle. Arlis Love, 30, Ronan, Mont., an employee of the Northern Pacific railroad, received chest and back injuries in the fall near Look-out summit, Wednesday night.

Dodge Offers New Size in Coronet Line

Dodge will enter the 1965 model year with a new-sized Coronet line added to its product lineup, between its compact and regular-sized cars.

The 117-inch-wheelbase Coronet provides sufficient passenger compartment space to accommodate six adults comfortably.

The 17 models are divided between the Coronet, Coronet 440 and sporty Coronet 500 series, and a 225-cubic-inch six cylinder and a 430-cubic-inch V8, including an economical lightweight V8.

The new Dodge line, along with the compact Dart and conventional-sized Polara and Custom 880, will be introduced to the public at Dodge dealerships across the country, Sept. 25.

Dodge's previously unfilled slot in its product line, which the Coronet will occupy is currently the fastest growing segment of the American automobile market.

"There is a definite trend, in both individual and fleet purchases, to a lower-price, family-size car like the Coronet, offering more car than the compact and yet more economical than the conventional-sized cars," Byron J. Nichols, Dodge general manager, said.

A wide and massive appearance has been given the new line in styling treatment of the entire front and rear ends. The front corners of the car have been noticeably squared off to take visual advantage of the full width, height and length of the body.

The four six-passenger and one nine-passenger station wagons have the same new styling details as the sedans.

Fifteen exterior colors are offered in a new acrylic enamel paint, which can be buffed back to its original gloss even after long-time exposure.

Interiors of the deluxe Coronet 500, with its new bucket seats, a center console with built-in storage compartment and simulated rear bucket seats.

Convertible in the same two series have a new type of dust boot made of expanded vinyl cloth, be fastened with effort because of the material's stretch characteristics.

The standard power plants for the Coronet line are a 225-cubic-inch, 145-horsepower, six-cylinder engine with improved performance in the racing range, and a lightweight 273-cubic-inch, 175-horsepower V8.

Lunch

SALFORD, England, Sept. 18 (U.S.)—Three bandits threw a bucket of white paint into the back of a car yesterday, and grabbed his satchel. But they just wasted their time. Only his lunch was in it.

No New Evidence Found for Fire At University

PROVO, Sept. 18 (U.S.)—No new evidence had been found yesterday which would lead to the cause of the fire which destroyed the Brigham Young university motion picture studio, Tuesday, said Eldon Hendrichson, BYU fire marshal.

Investigation is being made difficult because the destruction of the origin of the fire was too complete, stated Mack Smith, assistant to Hendrichson.

Bert Kirkwood, Provo fire chief, stated that it appeared that the \$500,000 blaze was not caused by arson.

DEADLINE NOTED
BLISS, Sept. 18 (U.S.)—Deadline for entry in the "Who Do You Know With Wool" contest is Oct. 18. Information may be obtained from Mrs. James Faulkner, Bliss.

Reception Is Held by PTA At Jerome

JEROME, Sept. 18 (U.S.)—Teachers were honored at a reception held at Jefferson school Tuesday night sponsored by the PTA.

Supt. William A. Lipscomb was introduced and Donald Dunkin, new band instructor, explained plans for the music department.

Principal T. H. Trachtenbury introduced the teachers who are Dorothy Detweiler, Betty Shaud, Zella Erdman and Genell Peterson, first grade; Letha Hancock and Louise Kennedy, second grade; Helen Baughman and Alice Morton, third; Madge Stefanitz and Fred Jackson, fifth grade; Melba Howlands and Mary-Grace Cox, fourth; and Alice Clark and June Daw, sixth.

Mrs. Peterson won the room count for the lower grades and Fred Jackson for the upper grades.

Executive committee members served refreshments and it was announced the next meeting will be held Oct. 13.

Talks Sunday

RIOHON, Sept. 18 (U.S.)—The Rev. John Sims, Kimberly, will fill the pulpit at the local Methodist church for the 11 a.m. worship service again this Sunday.

He will speak in the absence of the Rev. Bert Powell who is in Missouri with his wife who underwent major surgery recently.

Minidoka Schools Slate Harvest Vacation

RUPERT, Sept. 18 (U.S.)—Harvest vacation for students in Minidoka county schools will be held from Oct. 9 to Oct. 19, trustees announced today.

No student will be released before Oct. 9 for field work because tests will be given during that week. Teachers Institute will be held Oct. 12 and 13 in Twin Falls.

A group of people met with the school board this week to discuss the junior high school football program for students in the seventh and eighth grades.

The board agreed to go ahead if other junior high school students in the county would participate.

An increase of 302.53 students attending school over last year's figures were noted by Supt. Camden Meyer. The board may ask for emergency levy to take care of the increase growth in the county, and have asked for the maximum of three mills. Total enrollment in the county is 4,978 students.

A breakdown of enrollment in the county schools include Acequia, 308; Heyburn, 731; Lincoln, 317; Memorial, 321; Paul, 767; Perishing, 337; Pioneer, 181; and Washington, 478. Enrollment in the Minidoka high school, 1,845.

School board members discussed the action taken by the department of law enforcement whereby school buses were not allowed to back up when picking up youngsters. This has presented quite a problem in Minidoka county because of the many

dead-end roads caused by the new interstate highway and also the many sections on the north side.

Parents are required to supply a turnaround for the buses that drive into lanes or dead-end roads if their youngsters are to be picked up at their home or other areas.

Ned Blocks and Elizabeth Toolson, teachers at Minico, discussed the music and debate program outlined this year.

Monte Thompson, student body president, presented each member of the board with an activity ticket, enabling them to attend games held at Rupert and also presented them with the annual yearbook, "The Sparta."

Teaching contracts were approved for Boyd Stallings, Merle Stallings, Melvin Heath, Wilma

Rickett, Opa Rasmussen, Patricia Hafon and Gregorson Hafon.

Mrs. Elaine Rash has been hired by the school board to teach fourth grade class at Lincoln to alleviate the overflow

Changes Are Extensive in 1965 Cadillac

Cadillac for 1965 represents the most extensive change in the division's 62-year history. Completely new from top to bottom, inside and out, the 1965 models will appear in dealers' showrooms Sept. 24, according to Harold G. Warner, general manager of Cadillac and vice president of General Motors.

Eleven models are offered in three series for 1965. The series are Calais, new this year and replacing the Sixty-Two series designation, de Ville and Fleetwood.

A new sedan model with a thin pillar replaces the six-window body style in the Calais and de Ville series.

The new model in the Fleetwood series is the Sixty Special sedan with its own exclusive 132-inch wheelbase and an overall length of 227.5 inches, an increase of four inches which is realized largely in the rear passenger compartment.

From the side, Cadillac's length is emphasized by three distinct planes of metal.

Comfort and convenience are the key words for the interior of the 1965 Cadillac. All seat backs in the Calais and de Ville series are highly contoured.

The front floor tunnel is substantially reduced in size in all models. And a new concept in instrument panel design results in additional knee and leg room for front seat passengers.

One of the three new Cadillac options is the telescoping steering wheel which allows a three-inch field of movement.

A second option is the redesigned power lock doors. When a front door is locked or unlocked all other doors adjust accordingly, and all doors unlock when a key is used from the outside.

Yet another new feature is an automatic defogging device which maintains the car at design or normal humidity regardless of passenger or trunk load. It is standard on the Sixty Special sedan and Eldorado convertibles.

Earlier trim combinations total 150, 25 more than last year, in a choice of seven cloth materials and popular perforated leathers.

Cadillac's 340 horsepower engine is coupled with an improved Turbo Hydra-Matic transmission having a variable stator which gives a more suburban passing gear with performance gains in the 20- to 50-mile-per-hour range.

Union May Strike Swift Meat Firm

CHICAGO, Sept. 18 (AP) — The United Packing House Workers threatened yesterday to strike Swift and company, the nation's largest meatpacker with plants in 13 states, unless agreement on a new contract is reached by midnight Monday.

A union spokesman said the "temporary extension agreement" on its contract would terminate then and that means the union "would be free to strike at that time."

The United Packing House Workers represent about half of Swift's 20,000 union meatpackers, including a plant in Denver.

The main issue, according to the union, is wage rates at Swift's Wilson, N.C., plant. The spokesman said workers there get an hourly rate of \$1.76 while workers in the Swift plant in Chicago make \$2.02 per hour for the same work.

Heyburn Boy Is Held for Investigation

HEYBURN, Sept. 18 — A 15-year-old Heyburn boy is being held in the Minidoka county jail on a detention order pending further investigation.

He was surprised Saturday night by Lloyd Wilson, village marshal, when he entered Mac's market. The youth was apprehended inside the building. Wilson called for assistance from the sheriff's office.

Officers learned from the boy that he and two other boys had broken into Mac's Drive-In on Sept. 7. The boy also said he had broken into several homes in

this area, officers said. Sheriff's officials said they could not disclose the names of the boys without permission of the probate judge who is out of town until next week.

Juvenile petitions are being filed on the other two boys. Mrs. Ralph McCord, owner of Mac's market, reported this break-in was the fifth at the building since they took over the business in 1959.

Highway Fete Plans Listed At Heyburn

HEYBURN, Sept. 18 — Leo J. Harty, member of the executive committee for the Chamber of Commerce, reported on the progress for the new four-lane highway ribbon-cutting ceremony to be held at 11 a.m. Saturday, during the chamber meeting Wednesday evening.

He said state police will divert traffic to the highway from 10:30 a.m. until after the ceremony, where Gov. Robert R. Anderson will be a guest. Ribbon-cutting will be a grand affair, with the dedication ceremony, William Wilson and Mayor Harty expected to attend traffic for parking.

Harty also explained the new approach to the highway. He said the highway will be a four-lane highway with a median strip. The highway will be a four-lane highway with a median strip. The highway will be a four-lane highway with a median strip.

Members discussed the feasibility of improving the building. The next meeting will be held Thursday and the group will host the Pomona Orange.

Seminary Dance Slated at Jerome

HAJERMAN, Sept. 18 — A seminary dance will be held Saturday at the JEROME LDS stakehouse. It was announced at the church. Those wanting to attend will leave from the church at 7:30 p.m.

Jeanette Wood gave the invocation. Sharon Brown led the theme. After short classes, a refreshment dance period was held, with Mr. and Mrs. Walter Brown, dance instructors, in charge.

Mrs. Howard Haslam presented Min. Mild certificates to Pamela Misseldine, Coletta Lloyd and Hanna Akers.

Correction

The Twin Falls Little League football jamboree will be held from 6 to 9:30 p.m. Saturday at Lincoln field. The time was incorrectly listed in Thursday's Times-News.

Funds received at the jamboree will be used to replenish equipment for the players.

Mrs. Morgan Is Named to Third Term as Master

PAUL, Sept. 18 — Mrs. Edith Morgan was reelected master of the Paul Orange lodge, the Wednesday night meeting. This will be her third consecutive term in office.

Other officers elected are George Twiss, overseer; Mrs. Dave Kraus, Jr., tutor; Lynn Owen, steward; Gerald Schneider, assistant steward; Mrs. Alma Stewart, chaplain; Tom Stuart, secretary; Mrs. George Twiss, treasurer; Ina Jean McGregor, Pomona; Mrs. Stuart, Ceres; Mrs. Jack Robinson, Flora; Ray Clark, catechist; and Mrs. Gerald Schneider, lady assistant steward.

Members discussed the feasibility of improving the building. The next meeting will be held Thursday and the group will host the Pomona Orange.

Members discussed the feasibility of improving the building. The next meeting will be held Thursday and the group will host the Pomona Orange.

Rupert Officers Report Mishaps

RUPERT, Sept. 18 — Two accidents were reported Tuesday by the Mindoka county sheriff's office with no injuries involved. Jess J. Cole, 30, Heyburn, was cited for driving without a driver's license after a one-car accident on highway 30 about three-fourths of a mile northwest of the Burley-Heyburn bridge.

Cole told officers he lost control of the vehicle after striking an animal in the highway. The car traveled off the right side of the road striking a telephone pole then going through the fence of the cemetery.

A deer was killed five miles north-east of Burley on 400 east after being struck by a 1961 Pontiac driven by Oleo B. Parker, Rupert.

The driver of the vehicle reported the deer jumped out onto the road. Damage to the front end of the Pontiac was listed at \$200.

YOUR BIRTHDAY and HOROSCOPE

FRIDAY, SEPTEMBER 18 — Born today, you are genial, tactful and diplomatic—a person who makes friends as easily and as naturally as breathing. You have extremely high ambitions, and your talent for making friends should stand you in very good stead when it comes to fulfilling those ambitions. Many will be willing and eager to help you up the ladder of success, and if you are wise, you will not be too proud to accept their help.

You have a gift for words. Indeed, this could be one of your most vital attributes, for it is quite likely that your career will involve public service and public contact. The ability to get your ideas across succinctly and persuasively both in writing and in speaking will be most important to your success.

Self-possession and extremely self-assured, you are one who acts quickly, calmly and sensibly. Whether the situation is normal or extremely critical, your own weakness may lie in trying to do more than you should; take care, therefore, to set aside vacation times for yourself and family every year, as well as at least one full day of rest every week.

Among those born on this date are: John Diefenbaker, former prime minister of Canada; Henry Kissinger, noted diplomat; Samuel Johnson, famed English essayist.

To find what is in store for you tomorrow, select your birthday and read the corresponding paragraph. Let your birthday star be your guide.

Saturday, September 19 — VIRGO (Aug. 24-Sept. 23) — Avoid indulging in activities which require the use of unfamiliar techniques. Guard personal possessions.

Sunday, Sept. 20 — Only what you know, not what you think or hope you know, will count today. Avoid playing guessing games with your future.

Monday, Sept. 21 — A deer was killed five miles north-east of Burley on 400 east after being struck by a 1961 Pontiac driven by Oleo B. Parker, Rupert.

The driver of the vehicle reported the deer jumped out onto the road. Damage to the front end of the Pontiac was listed at \$200.

A day when Capricorn's temper lies just under the surface. Avoid meeting with those who are known to irritate you.

AQUARIUS (Jan. 21-Feb. 19) — Where you see a difference of opinion in the office, steer clear of whatever seems to be the cause. Seek harmony and understanding.

PISCES (Feb. 20-March 20) — The Pisces who relies on his level head rather than his up-and-down emotional makeup should be able to make a rough day smooth.

ARIES (March 21-April 20) — Conflicting trends could be this day's undoing—unless you are willing to make allowances for errors.

TAURUS (April 21-May 21) — If yesterday went according to plan, then today's activities should fall into place without trouble. Follow a natural course.

GEMINI (May 22-June 21) — Trust no one more than you do yourself. Others may have the good word, but you must have the ink word.

CANCER (June 22-July 23) — You will surely court trouble if you try innovations. Stick to your customary way of doing things.

LEO (July 24-Aug. 23) — Avoid disputes. Play it safe and remain as noncommittal as possible. A day for having your "may" come later.

VIRGO (Aug. 24-Sept. 23) — Avoid indulging in activities which require the use of unfamiliar techniques. Guard personal possessions.

Sunday, Sept. 20 — Only what you know, not what you think or hope you know, will count today. Avoid playing guessing games with your future.

Monday, Sept. 21 — A deer was killed five miles north-east of Burley on 400 east after being struck by a 1961 Pontiac driven by Oleo B. Parker, Rupert.

using infatuation with love. Avoid, too, becoming unduly attached to one whose main interest in you is more like the love of a mother or a father than like that of a wife or a husband. You would not be happy with a spouse who acted like a post for you to lean on.

Among those born on this date are: Mike Waltari, novelist, editor; Beren Evans, scholar, author; lecturer; William Backhouse Astor, famed financier.

To find what is in store for you tomorrow, select your birthday and read the corresponding paragraph. Let your birthday star be your daily guide.

Sunday, September 20 — VIRGO (Aug. 24-Sept. 23) — You may anticipate a day of profits as the financial outlook for Virgo is increasingly favorable.

LIBRA (Sept. 24-Oct. 23) — A better job or an improvement on the one you have should follow quickly upon today's activities if you have done your work well.

SCORPIO (Oct. 24-Nov. 23) — Avoid going out on a limb merely to prove yourself a friend. There are no of aiding another without harming yourself.

SAGITTARIUS (Nov. 24-Dec. 23) — Make the best of a Sunday.

Colorado, USC Initiate College Football Action

By The Associated Press
Colorado and Southern California kick off the first full week-end of the college football season Friday night—a week-end that has more toughness than traditional opening breathers. The Saturday line-up offers Navy at Penn State, Syracuse at Boston College, Georgia at Alabama, Air Force at Washington, Texas A and M at Louisiana State, Oklahoma at Maryland and Missouri at California as examples of major teams opening with important opponents.

And Mississippi, picked No. 1 in The Associated Press' preseason poll, could have its hands full with Memphis State, a growing power ready to challenge Georgia Tech as the South's top independent.

Southern California, co-favorite with Washington to make it to the Rose Bowl, start festivities tonight against Colorado, the only major Friday action and only the second major college game of the season.

UCLA opened the season with a 17-13 upset at Pittsburgh last week.

"We're ready," coach John McKay said after Southern Cal's final workout Thursday. "They've spent three weeks with no scrimmages and everybody wants to do some hitting. The fellows are hungry."

Halfback Mike Garrett, who paced USC to a 14-0 victory at Colorado last year, again is expected to lead the attack. Colorado lost only five men by graduation from the team that compiled a 2-8 mark last season, but is relying heavily on sophomores and is a three-touchdown underdog.

Mississippi is favored, against Memphis State, but not too heavily. Ole Miss again sports a rock-ribbed defense, and has a score to settle with the on-coming Tigers, who held them to a scoreless tie last season.

Oklahoma, deep and tough, is ranked No. 2 and with quarterback Mike Ringer in good shape, is favored over Maryland. Terrapins' Mont Mumford, however, is a minding people he has managed an upset in each of his 27 years as a coach.

One of the top attractions, and one of four regional television games, is the 10th-ranked Navy at Penn State. The Midships will play heavily on Quarterback Roger Staubach. Penn State is reported to have some thin spots, but is a very slight underdog to the team that was No. 2 in the nation last year.

The other regional TV games are SMU-Florida, Kansas State-Wisconsin and Stanford-Washington State.

Texas may not be quite as tough as the team that took the national title last season, but the Longhorns have their defense back virtually intact in this year's team. The Longhorns are favored and are heavily favored over Tulane.

Neither is ranked among the top 10, but the Missouri at California affair could be one of the more interesting. Missouri is ranked second only to Oklahoma in the Big Eight and has a revamped defense to test Cal quarterback Craig Morton.

Errors Help Phils Beat Dodgers 4-3

LOS ANGELES, Sept. 18 (AP)—Don Drysdale's throw in the ninth inning enabled the Philadelphia Phillies to score their fourth unearned run and defeat the Los Angeles Dodgers 4-3 Thursday night.

Drysdale, right-hander, Don Drysdale, who hasn't beaten the Phils in seven decisions dating back to June 1, 1963, was the victor in this one, and lost his 14th game against 18 victories.

In the ninth with the score tied 3-3, Drysdale hit leadoff batter Ruben Amaro with a batter's error. Amaro then popped pitch John Rizzo, who grabbed a ball but fired wild to first in an attempt to double up Amaro.

Amaro wound up on second on the play, advanced to third on Tony Gonzalez's single and scored as Richie Allen hit into a force out.

Redlegs Use Homeruns to Sink Cubs 7-5

CHICAGO, Sept. 18 (AP)—Frank Robinson, Vada Pinson and Johnny Edwards hit homeruns as the Cincinnati Reds 7-5 Thursday night.

Pinson, left-hander, hit a two-run homer in the seventh inning and ignited a two-run seventh inning with a single.

Edwards hit his seventh homer in the fourth and drove in another run with a sacrifice fly in the seventh. Pinson hit his 21st homer in the eighth.

Johnson and T.E. Sophs Drop Burley

Dick Johnson threw three touchdowns passes, scored another himself and added three extra point conversions Thursday night as the Twin Falls sophomores defeated Burley's sophomores.

Johnson hit Gary Simpson for 39 yards and the first touchdown and then teamed with Scott Swope on a 17-yard scoring pass play. Before the half ended he rambed 50 yards on a quick pitch out of T formation.

Dave Turner scored for the

Nicklaus and Beard Lead Portland Golf

PORTLAND, Ore., Sept. 18 (AP)—Jack Nicklaus, getting off to his best start in weeks, and Frank Beard, a young pro who almost died earlier this year, stroked four-under-par 68 Thursday and tied for the first round lead in the \$40,000 Portland open golf tournament.

Both men had rounds of 33-35 on the par 35-37-72 4,404-yard Portland golf club course.

Nicklaus played his first four holes in the morning, but Beard played his entire round in afternoon sunshine.

One stroke behind them at 69 were U.S. open champion Ken Venturi, who was four under par after nine, but lost his putting touch; veteran Lionel Hebert, and little known Jack McGowan of Largo, Fla.; Ron Letteller of Santa Monica, Calif., and Sonny Methvin, Baton Rouge, La.

More than 40 other golfers were within four strokes of the leaders.

Dave Hill, who tied the course record with a nine-under-par 63 in Wednesday's pro-amateur round, found the course tougher Thursday and played even par on rounds of 36. An identical round was recorded by Billy Casper, Jr., who won this tournament in 1959, 1960 and 1961.

Defending champion George Knudson had a 73 Thursday.

Two Veterans Gain Tourney Semi-Finals

CLEVELAND, Sept. 18 (AP)—Bill Campbell and Ed Tutwiler, two aging codgers who have dominated West Virginia golf for 20 years, survived exciting overtime duels and went into the semifinals of the national amateur championship Thursday against a pair of scrappy collegians from Texas.

Campbell, 41, former Walker cup captain playing in this tournament for the 21st time, will meet Mark Hopkins, a 21-year-old University of Houston junior from Texas City in one 36-hole match Friday.

Tutwiler, a 49-year-old car dealer will face Dave Kiehlberger, 21-year-old Oklahoma State student from Waco, Tex.

These four were survivors of a double round of eliminations played over the Canterbury Club course in clear, crisp weather. The 36-hole finals are set for Saturday.

Campbell, a tall Princetonian who sells insurance in Huntington, W. Va., first defeated the colorful Billie Joe Watson of Morganon, N. C., 5 and 4 and then won a 10-hole match from Dale Morey, former Walker Cup teammate.

Campbell went ahead at the 17th but hit his drive out of bounds on the 18th carried the match to extra holes. On the 425-yard 19th, Morey, after a good drive, bumped his approach

Clay Brags of Being Unbeaten, Untarnished, Prettiest Champ

NEW YORK, Sept. 18 (AP)—They presented Cassius Clay with a 24-carat gold-plated championship belt Thursday. According to the heavyweight titleholder, it was unworthy of him and he would have been more appropriate.

Either forgetting or ignoring his recent promise not to pop off, the loquacious one predicted a long reign for himself and eventual retirement as "the undefeated, untarnished and still the prettiest" heavyweight champion of the world.

"I'm the most popular fighter who ever lived," he said, "and getting more popular every day. And I haven't even defended my title yet. Imagine, after I hold the title four years, up to 10, I'll be so popular the people will demand I run for president of the United States."

The ceremonies, which took place in the office of Ring magazine with editor Nat Fleischer making the presentation, began seriously enough. Clay accepted the belt graciously and posed for photographers and television cameras with the adornment first around his waist, then across his shoulders.

Dressed in a blue-grey suit, the young champion spoke earnestly about his coming rematch with Sonny Liston, scheduled for Nov. 16 at Boston. He said he weighed 230 pounds but both he and his trainer, Drew (Dundee) Spivey, insisted on one more fight.

"It's still growing," explained Brown. "I used to look down at him. Now he looks down at me. He weighed 210 for the first Liston fight. Next time he'll probably come at 223."

It was not until somebody mentioned the recent action by the World Boxing association in stripping Clay of his title for the return bout with Liston that Cassius went into his old routine.

"Who is WBA?" he asked. "Do they give you a belt like this?"

"No. I don't plan to sue them. The only way they can take the title away from me is in the ring. And there ain't nobody around who can do that."

"They're talking about an elimination tournament to find a challenger for me," he said. "I'm good. That'll warm things up a bit. I'll be delighted to fight the winner."

"I hope it's Floyd Patterson. He's the money man. There's just one thing wrong with him. He talks too much."

Clay said he was leaving immediately for Miami Beach, where he planned to start serious training Monday.

Brown, who has been with Clay ever since he began his climb to the top several years ago, was asked whether they had any new training plans in mind?

"Does Coca Cola change it's

Yanks Belt Angels, Cop League Lead

NEW YORK, Sept. 18 (AP)—The New York Yankees slipped into first place in the American league by two percentage points Thursday night, defeating the Los Angeles Angels 6-2 behind the pitching of Mel Stottlemyre and Roland Sholten.

The Yankees, who have won 10 of their last 13 games, moved ahead of the idle Baltimore Orioles and Chicago White Sox, who now are tied for second. It marked the first time since Aug. 6 that the Yankees held the lead. Their percentage is .593, the runners-up .591.

Stottlemyre, a right-handed pitcher, had allowed only one hit, a bunt single by Bob Rodgers in the fifth—until the seventh inning.

Mickey Mantle led the Yankee attack with three hits, two runs and a home run. (Dundee) batted in and three runs scored.

The Angels, who had lost their single and the 2,000th hit of his major league career, making him the fifth Yankee to reach that plateau.

Constellation Collects Second Win Over British Yacht in America Cup

NEWPORT, R. I., Sept. 18 (AP)—Sovereign got some of the wind she wanted and a colossal licking she didn't want Thursday as the United States yacht Constellation drubbed the British challenger for the second straight time in their sea battle for the America's cup. The 68-foot sloop of the New York Yacht club needs only two more victories to retain the Cup that has been gathering dust in this country since 1851.

Allyn Seeks Review of Sale Opinion

CHICAGO, Sept. 18 (AP)—Owner Arthur Allyn of the Chicago White Sox insisted Thursday that the Columbia Broadcasting System furnish American league players copies of an "antitrust opinion" CBS obtained in connection with its purchase of the New York Yankees.

Allyn made public a letter he sent to Dr. Frank B. Rowland, president of the league, asking that league members be permitted to review a written opinion prepared for CBS by a New York law firm concerning "antitrust questions inherent in the proposed sale of the Yankees to CBS."

Allyn said a similar request in August was rejected by Stanton, presumably because the opinion, prepared by Seymour D. Lewis of the law firm of Rosenman, Collins, Kaye, Petachek and Freund, was regarded as a legally privileged document.

But, Allyn said, at the Sept. 9 Yankee meeting at which the Yankees sale to CBS was reaffirmed, with Allyn and Charles Finley of the Kansas City A's dissenting, it was disclosed that the CBS opinion had been reviewed by John T. Hayes, Boston Red Sox attorney serving as league special counsel.

Allyn quoted Hayes from a meeting transcript as saying "and on examination of what counsel for CBS has done, we think they have a reasonable position on the antitrust aspect."

Allyn and Hayes further stated the league itself had reviewed the opinion of counsel for CBS.

"I have been advised by my attorney," Allyn wrote Stanton, "that whatever legal privilege may have existed at the time you initially declined the turn in a copy of the opinion was lost when the opinion was made available to and read by Jack Hayes."

T.F. Jayvees Cop 24-6 Win Over Trojans

Wally Wickham romped for touchdowns on a 37-yard punt return and 51-yard pass play Thursday to point the Twin Falls Jayvees to a 24-6 victory over the Raft River Trojans.

Wickham got Twin Falls ahead when Raft River punted on the fourth play of the game and he ran the kick into the end zone.

The Trojans, getting a pass interference call at the three-yard line bounced into a tie minutes later on a one-yard plunge by Dana Tracy.

Twin Falls immediately returned with a threat that carried to the three-yard line before the Trojans killed the drive. Two plays later Mint intercepted a pass and Wickham then scored the go-ahead touchdown.

In the second half Jim Moltren capped a long Twin Falls drive by aprinting the last 15 yards and with four minutes left in the game Broad went up the field for 12 yards and the final touchdown.

Baseball to Have Girl Announcer

BOSTON, Sept. 18 (AP)—The all-time prettiest of the American league's press boxes have been given fair warning. Charles O. Finley has done it again—hiring a blonde to help do the play-by-play commentary on Kansas City Athletics games.

Betty Caywood, a onetime weather girl on television in Chicago, joined the broadcasting team of Monte Moore and George Bryson briefly at Fenway park Wednesday. She plans to start broadcasting regularly when the A's play at Yankee stadium.

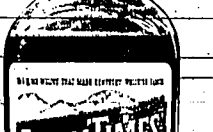

Game Tonight

The Twin Falls Bruins will entertain the Mexico Spartans at 8 p.m. today at Lincoln field.

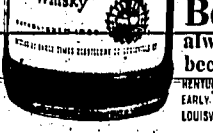

Twin Falls carries a 3-0 record into the game while Mexico is 0-1.

Vandals Hit San Jose in Grid Opener

SAN JOSE, Calif., Sept. 18 (AP)—Idaho's revitalized Vandals, thought by some to be their best squad in 25 years, tangle with the San Jose State Spartans Saturday in the 1964 football opener for each.

Don Andros, a former California assistant coach, has built a fast moving team at Idaho, one rated better than his 1963 edition that whipped the Spartans 38-12.

Quarterback Mike Monahan engineered the victory a year ago in back.

Andros fields an offensive line averaging 313 and a dependable halfback in Rich Nacario. Sophomore fullback Ray McDonald, a 225-pounder expected to give crushing power to the attack, is out with an ailing Achilles tendon.

Coach Bob Titchenal at San Jose boasts triple strength at running and a good passing attack generated by quarterback Ken Henry.

The fullbacks are Herb Engel, Charley Haraway and Jerry Bonetto who make this the strongest position on the club.

John Travis, a 265-pound halfback who starred at nearby Pocatello Junior college, and Eddie Titus, from Oakland JC, have apparently won spots in the backfield.

Filer Jayvees Nip Buhl 7-6

FILER, Sept. 18—The Filer Jayvees struck for a third period touchdown and added the extra point Thursday night to defeat the Buhl Jayvees 7-6 in a defensive dual.

Filer, which held Buhl inside the 20-yard line three times, went ahead on a 24-yard pass from Ron Wyatt to Dennis Lutz. Cecil

production has been rising
12 straight months. And in
last 11 of these, each month
set another high. Output is
8 per cent greater than a y
ago, and 33 per cent higher th
the 1957-59 average.

for a number of industries. ~~As~~ while they were struggling put idle capacity to profitable use, and meanwhile to cut production costs to balance the books. Now they are finding demand for goods so strong that they can afford to build new plants.

For several years the emphasis has been on mechanizing

The 12 months of steady vance in industrial output followed a short-lived dip in summer of 1963—that had interrupted a seven-month climb for that. Together the two gains since the start of 1961 have put to work much of

surplus capacity that plagued industry after its big expansion spree in the mid-1950s.

Now each new government private survey of businessmen intentions raises the ante on spending on expansion.

Many figures back up the claim that industrial output itself. Manufacturers' sales are running per cent ahead of last year's and profits have climbed

per cent. Profit margins are averaging 5.5 cents for each dollar of sales, compared with 4.5 cents a year ago.

Factory employment last month came to 17.5 million, up 300,000 from a year ago. The factory work week averaged 40.0 hours, the highest for any August since 1950. Average weekly earnings of factory workers are put by the government at \$103, up 4.5

cent from last year. For corporate planners all adds up to this: Record sales and profits, increased employment and personal incomes, ample funds in company treasuries. And these spell the opportunity for greater production-capacity to meet the promise of future increases in consumer spending and industry's own demands for materials and machines.

REMEMBER WHEN

By BOB REESE

his own his-
on the eve
Allied victory
Europe.

Then came
E Day, and
hysterical ce-
brations as

Realized that peace was at within our grasp. The attention Americans turned fully toward the Pacific. From there, in August, came news overshadowed everything else: the atomic bomb fell on Hiroshima. Its giant mushrooming cloud of destruction announcing a change in the destiny of the world.

Then came V-J Day . . .
end of the war in the Far East
and peace throughout the world.
In San Francisco, representatives
of the world's nations met in a
joint session, where they agreed
to give birth to an organization
which would shape the course of
future world peace and harmonize
antagonistic nations. Here, that day,
the United Nations was born.

Along Fences and Canals

Many west and northwest Richfield farmers started cutting beans Saturday.

Maurice Shaw, Corral farmer, is building a loading chute on his farm. He is waiting for his spring grain to ripen so that he can harvest it. Some of the farmers have been able to combine with their winter and spring grain already.

Norman Leek has recently completed a new loading chute on his farm up Soldier creek north of Fairfield.

With 17 head of milking shorthorn cattle, Keith Jackson, Shoshone, was honored at both the Twin Falls and Blackfoot fairs. He has received 13 blue ribbons and the male and female grand championships. While at Blackfoot he won 15 blue ribbons besides the grand champion honors and two silver trophies for premier exhibitor and premier breeder. He now will enter the herd at the Salt Lake City fair.

Marley area farmers are starting to thresh beans this week after more than a week of good drying weather. Damage caused by an August frost has not been estimated on the tract since frost was spotty and slowed growth on the plants instead of killing them, in many cases.

Mr. and Mrs. D. H. Gold, who have two ranches near Tullia, had the garage on their home ranch Sunday in a fire. They credit quick action of a neighbor, Gene Turner, for saving the nearby house. He sprayed water on it until the fire department arrived. Small tools in the garage, which were destroyed in the blaze but there was no loss in the garage. The Golds were not at home at the time and the fire is thought to have been caused by an electrical short.

Mr. and Mrs. Alvin Carpenter have moved their trailer house to Pocatello after having spent the summer in Elba helping on the ranch of his mother, Mrs. Violet Morgan. The young couple plans attending school at Pocatello for the next year.

Mr. and Mrs. Guy Hurling, northwest Richfield farm couple, had an enjoyable week-end work visit with their four sons and families and son-in-law and daughter and family. The group stayed at the Hurling home, cleaned dishes, baked bread and sawed wood, among other things. The group included Mr. and Mrs. Tom Hurling and family, Bob Hurling and son, all Boise; Mr. and Mrs. Bill Hurling and family, Bellevue; Mr. and Mrs. Harold Hurling, Twin Falls; and Mr. and Mrs. Lloyd Shook and daughter, Kayville, Utah.

Willard Costello, Fairfield, reports that the grasshoppers are so thick that hundreds of them come through his combing and line up like soldiers on the edges of the grain hopper and ride around the field as he cuts grain. He says that he showed the phenomenon to people who visited his field on Monday. Costello is driving his combine with his leg in a cast, having broken it in a motor-cycle accident earlier this year.

George Bear, Richfield farmer, has a 24-hour job playing nursemaid to one of the smallest black Angus calves reported born here and in good condition. The 6-day-old calf is about 17 inches tall and weighs about 20 pounds. Bear kept the calf in the house as a cold night and used a lamb nipple for feeding. A local area veterinarian stated he believed it to be the smallest calf he has ever seen that survived. It was born approximately three weeks early.

Corn cutting on the Star Lake ranch owned by Frank Lewis and the Martin Janszquez farms, Dietrich, was completed this week. Damage to the corn by the early frost was minor, however many farmers are reporting bean damage by the frost.

Her Mcowan, Dietrich rancher, has purchased four registered Holstein heifers from Thomas Mahory, Rupert, to add to his milking herd.

Mr. and Mrs. Ed Anderson, Dietrich farmers, have painted their house. The new white paint is accented with pink trim.

The Judds, who spent his summer vacation in Springdale with his wife, Mrs. Judd, and Mrs. James Bronson, has returned to his home in Boise. Before leaving he spent several days helping his wife gather alfalfa from the summer range and drive them to the fields at the Clear Creek ranch at Naf.

Maria Woodward has finished threshing clover seed at the Arise Ranch south of King Hill. Greer says out of nine she has got 23 200-pound sacks of seed. He is well satisfied with the yield. He has hauled the seed to the Ruhl Seed company.

Mr. and Mrs. John Baptie have returned from Pocatello, where they attended a ram sale. Mr. and Mrs. Baptie own a band of sheep and pasture them at their ranch land at Muldoon during the summer months and at their ranch southwest of King Hill, where lambing operations also take place, during the winter.

John Haley, Payson, Ariz., is working at the home of his brother-in-law and sister, Mr. and Mrs. George Peter. Haley will help with the fall roundup of Peter's cattle at Brunegu this fall.

USDA Predicts Milk Prices Will Average Above 1963

WASHINGTON, Sept. 18.—The agricultural department reports that farm prices for milk probably will average above last year's levels for the rest of 1964. The forecast was made in a department report on the national dairy situation. The report pointed out that commercial sales of milk in all dairy products ran one per cent above the 1963 level during the first half of the year.

Another factor in boosting dairy prices for the rest of the year may be the severe summer in many dairy producing sections. Farmers in about 10 milk-shade-covered by federal marketing orders have asked the department to order price increases to help offset drought losses.

In spite of the drought, production has continued high. The department predicts production may reach 25.5 billion pounds.

LATE CALVES CAN GROW

WASHINGTON, Sept. 18.—Using identical twin pairs of calves, New Zealand researchers claim that the twins calving late in the season averaged significantly more milk, butterfat, solids not fat, and total proteins per lactation than their earlier calving pair members.

SPECIAL NOTICE

ACRES OF OPPORTUNITY IN IDAHO

EXAMINING POTATOES in Eastern Idaho is James Bryan, extension potato specialist. The spuds were planted during May and were about as good as any found on special tour taken of frost-damaged areas. (Times-News photo)

Frost Damage Can Be Cumulative On Potatoes, Become Real Villain

By G. H. CHAMBERS
Frost damage can be cumulative on potatoes, said Jim Bryan, Blackfoot, extension potato specialist during a tour of eastern Idaho potato fields earlier this week. Virgil Cross, Burley, extension potato specialist, concurs and both believe that cumulative frost damage was the hidden villain in drama of the Idaho potato situation.

Bryan pointed out that it has been freezing some where in the Snake River valley practically every night since the middle of August. He pointed out that frost occurred for a period of 10 days straight.

The frost and weather pattern in Magic Valley has been somewhat irregular hitting in one place and then in another gradually nipping at the potato crop. Cross pointed out that several farmers have called him to report frost damage. At first the report was that they had been nipped, but not damaged. The next they the farmer would say his was nipped again. This would go on until one day the farmer would call and report that the crop was frozen.

In other words the vine and the stem were gone and the crop would receive no additional nutrition for growth.

It appears that the frost line greatly followed the snow line of last winter. Burley, Twin Falls and Rupert were free of snow, but five or 10 miles to the north the snow line would start. In Minidoka county the land takes a sharp elevation rise north of Paul and along this ridge the frost pattern developed.

Potatoes and frost occupied a considerable amount of the conversation during a 400-mile jaunt into eastern Idaho taken by the Times-News farm reporter in company with Cross and Bryan.

One of the subjects concerned the distance between major potato producing areas and nearby weather stations.

Often the weather station and the potato areas are 10 to 20 miles apart and with some variation in elevation. Thirty degree weather in Idaho Falls could be quite different than 26-degree weather at Tabor in its effect on the crop. The movement of wind affects the scattering of frost.

This reporter noticed that on the road between Roberts and Lorenzo the only green field of potatoes was close to a butte. On land with some slope, part of the field was green and part was black. Lowlands close to the river were unaffected while land 10 miles due west and slightly higher was killed.

Bryan told the Times-News that much of his territory hadn't been surveyed and he was getting into frost damaged areas for the first time Tuesday. The Eastern Idaho State Fair occupied his time the previous week.

The group dug into potato hills where Bryan knew the planting dates. Potatoes planted in May were sizeable. On one farm three hills of potatoes were dug before any four-ounce spuds were found.

A year ago southern Idaho farmers experienced good weather until the middle of October and they also had a late spring. Two years ago there was a killing frost on Sept. 8. The killing frost on Sept. 8 greatly hurt the national bean picture.

This year there is no real date that can be pinpointed on frost damage. However, Bryan said one farmer told him that temperatures dropped to 20 degrees while his farm. Bryan also told of one farmer who hired two airplanes to keep the air moving over his potato land and frost still nipped his crop.

The damage in eastern Idaho puts new emphasis on the Magic Valley crop, estimated at roughly 65,000 to 75,000 acres. Emphasis has already been placed on the Idaho crop because of reported frost in the Red River valley of North Dakota and reported frost in Colorado.

Judges Have Been Named for Annual Twin Falls FFA, 4-H Fat Stock Sale

Judges have been named for the annual Twin Falls County FFA-4-H Fat Stock sale which will be held next Saturday at the Twin Falls Livestock Commission company, announced Ed Schaff, judging committee chairman.

The judging will begin at 10 a.m. and the sale will start at 1 p.m. General chairman for the event is Ivan Skinner.

Judges include Wade Wells, extension animal husbandman, Boise, swine Wayne Barnes, order buyer, Caldwell, and Ray Chung, order buyer, Jerome, beef, and Ed Arnold, Stock Growers Packing plant manager, Gooding, will judge sheep.

Both Skinner and Schaff said they expected a good turnout for the sale, noting that some of the finest fat stock of the year in Southern Idaho will be going through the ring next Saturday.

"We have had good support in the past and there is no reason why anyone should not continue or improve," they said.

Donald Youz, Twin Falls county agent, said some 115 top beef animals will be judged and offered.

"The FFA and 4-H youngsters will be offering some top animals, many of which have already won fairs and other shows. The sale affords the youngster an opportunity to display or some of his project animals at top quality prices. In many cases

U.S. Apple Crop to Top Average

BOISE, Sept. 18.—The U.S. apple crop is now forecast at 145.9 million bushels, 16 per cent above last year's crop and 10 per cent above the 1958-62 average.

Prospective production of apples, declining during the past month in the Eastern states, more than offsetting improved prospects in the Central and Western states, says statistical reporting service.

The crop in the Western states is now set at 45.3 million bushels, three per cent less than last year's exceptional crop, but is 34 per cent above average.

Washington apples grew and colored well during August and developed more than usual during the month. The red delicious crop colored well and the fruit is well sized.

A good crop of golden delicious is expected in the north central area but the crop will be light in the Yakima valley. Winesaps are small this season in all areas except the upper Yakima valley, where a light crop is in prospect.

Although a average crop of Rome beauties is in prospect, the apple crop in California is turning out better than had been anticipated despite a high proportion of the small size Gravenstein.

In the Hood river area of Oregon, the crop is expected to be somewhat smaller than last year due to early frosts. Apples in the last half of August have sized and colored well. Prospects are down in Colorado due to lack of sizing.

This is partly due to cool temperatures in the Delta area the last half of August.

Idaho's apple crop is forecast at 1,450,000 bushels. A crop of this size would be the same as the 1963 production but 38 per cent above the 1958-62 average. An exceptionally good crop of the delicious varieties is in view. A fairly heavy crop of Rome

FOR FAST SERVICE ON TOP-QUALITY BULK FERTILIZER

When planning your fertilizer program, remember—we can save you time and effort! Let us fill your fertilizer needs fast, with our top-quality bulk.

MAKE USE OF OUR EXPERIENCE

With our local knowledge of local conditions, we can offer you:

- Fertilizer programming for your particular crops and soil
- Experienced technical advice.

TO HELP YOU

In bulk or blends we use ELEPHANT BRAND to give you these important benefits:

- uniformly-sized pellets—even rate of application
- free-flowing—no clogged equipment
- water solubility—all plant food readily available to your crops
- high analysis—more plant food per ton
- a quality product—more value for your fertilizer dollar

ORDER CUSTOM BLENDING FOR YOUR SPECIAL NEEDS

We can blend combinations of nitrogen, ammonium phosphate and other plant foods according to your needs, in the ratios you want. No delays! See us for top-quality fertilizer... fast, dependable service.

HENRY'S FARM SALES

OLD TIRES never seem to wear out. This pile of "knights" of the highways and byways still are at work. Rather, their work is cut out for them when the sugar beet digging season is completed. They are used by workers of the Amalgamated Sugar company to weight down plastic covers on the great piles of harvested beets, protecting them from the weather until they can be transported to the processing factory. This particular pile of tires was noted at the beet dump at Filer. There are a number of beet dumps at which the tires are used in Magic Valley. (Times-News photo)

Sorghum-Sudan Grass Hybrid, New Crops in Valley, Toured at Gooding

GOODING, Sept. 18 — Sorghum-Sudan hybrids, new crops in the Magic Valley area this year, proved to be of interest to 35 persons who attended a tour Tuesday arranged by Edward Koester, county agent.

The tour included three stops in the Wendell area. The first stop was at the Paul Marlow farm. Sudax (BX11) was planted June 10 in rows. Twenty-five pounds of seed per acre were planted, and the fertilizer application was 80 pounds of actual nitrogen per acre — one section of the seeding had been grazed three times.

Since the planting was not grazed until it was about 30 inches high, one portion of the field got quite mature and did not prove palatable to the milk cows. Marlow said additional nitrogen was needed after it had been grazed.

A report from the magazine "Feedlot" was read, which indicated that the University of Kentucky experiments indicate that emphasis should be placed on the utilization of a sorghum-sudan grass hybrid when it is in the vegetative state.

Analysis showed crude protein content dropped from 17.4 per cent to 8.5 per cent from July 27 to Aug. 7. Energy content also decreased during this period while crude fiber and ash content increased.

The Ralph Newberry farm stop gave an opportunity to see Florida and F.S. 22, a later maturing variety, in the same field. This planting had been made June 30.

The fertility was very high as the land was plowed out of hay after four years and 120 pounds of available nitrogen and 100 pounds of available phosphate added. The seeding was made with a grain drill cut down as far as possible so that 25 pounds were planted.

The seed was planted at one and one-half-inch depth. Some of the sodax was measured at 80 inches to 112 inches in height.

Newberry planned to pasture the sodax and F.S. 21 late in the season with beef cattle. He had a very thick stand and tremendous tonnage.

Gene Callen had cut his plantings of Sudan, sudax, and sorghum for hay July 10. The planting was made May 23. Fertilizer included barnyard manure and 100 pounds of available nitrogen. He found it difficult to cure the grass for hay as he had not used a conditioner as recommended. Callen noted a preference for the Sudan.

Several points of agreement were reached by the growers visited. The plants are heavy nitrogen users. They do well under hot growing conditions. Irrigation requirements are moderate. There is considerable concern over the protein acid content, although no losses have been incurred. This growing season probably has not been very conducive to maximum results with sorghum-sudan hybrids.

U.S. Reports Fire Damage Hurts Farmer

WASHINGTON, Sept. 18 — An agriculture department study shows that fire inflicts six times as much damage on the farm as in the city each year.

The department's economic research service said this is mostly because farms are isolated, lack fire-fighting facilities, and usually have less rigid standards for wiring, construction and heating equipment.

ERS said fire and lightning strikes two of every 100 farms yearly. Farm dwellings are hit most frequently. After that, ERS said, fire picks on barns, outbuildings, machinery, equipment and produce — in that order.

Fire losses on farms in 1963 were six times greater than lightning losses, ERS said. Fire hit buildings, while lightning struck at personal property, especially livestock.

Fire and lightning combined to destroy a record amount of farm property in 1963 worth 101 million dollars, ERS said. This was nine per cent above 1962 and 48 per cent above 1960.

ERS said rising property values plus higher replacement costs largely account for the spiraling fire and lightning losses.

trend and accounted for 90.1 per cent of 1963 production compared with 87.7 per cent the previous season.

On a fiscal year basis, July 1, 1963 to June 30, 1964, the volume used for chips and shavings was 27.2 million hundredweight compared with 24.8 million for the comparable period ending June 30, 1963.

Orchard Field Day Set by USU

LOGAN, Sept. 18 (UPI) — A tour of orchards and discussion of pertinent topics will highlight the annual fruit research field day at the Utah State university Howell field station, Ogden.

The event will begin with a tour of the orchard at 7 p.m., according to Leonard H. Pollard, head of the horticulture department.

Scientists from the extension service and from the zoology and horticulture departments will speak on fruit varieties, irrigation, pest control, storage and other topics.

Processed, Fresh Potato Markets Continue to Rise

BOISE, Sept. 18 — Potatoes going to fresh market and to processors of food products excluding starch and flour, totaled a record high 208.8 million hundredweight from the 1963 crop compared with 205.6 million hundredweight from 1962 production according to the crop reporting board.

An increase in the usage of potatoes by food processors more than offset a small reduction in the quantity for fresh table use. Sales for table use from the 1963 crop amounted to 160.3 million hundredweight, three per cent less than the amount marketed for table use from the 1962 crop and five per cent less than the record high quantity from the 1961 crop.

Processors of food products, excluding flour and starch, used 82.3 million hundredweight of the 1963 crop. This was 23 per cent of production and 14 per cent more than a year earlier. Utilization of potatoes by food processors has increased every year since potato utilization estimates started with the 1955 crop and the volume in 1963 was 2.5 times larger than 1955.

Of the potatoes used for processing, chips and shavings accounted for 26.7 million hundredweight, 41 per cent more than a year earlier. This was 10 per cent of total production and was larger than the amount used by any other class of processor.

Processing for frozen french fries took 19.8 million hundredweight of the 1963 crop, a sharp increase, 24 per cent, from the 1962 season. Production of frozen french fries has expanded rapidly and the 1963 level was 4.5

Distemper Can Render Dog Useless

DES MOINES, Sept. 18 — The No. 1 enemy of farm dogs is distemper, and, since the disease may either kill or render the dog virtually useless as either a pet or a work animal, farmers were urged today to have their dogs protected.

Distemper is very contagious, affecting dogs of all ages, but is most commonly found in young puppies, according to the American Foundation for animal health.

Farm dogs lacking the natural protection afforded by frequent exposure, generally are not as well protected against distemper as city dogs and, if the disease breaks out, it may spread rapidly. Distemper may be transmitted to dogs by raccoons and skunks, as well as other dogs.

Dogs which survive an attack of distemper may suffer permanent damage to their nervous system and have convulsions, uncontrollable twitching of a muscle or limb, or paralysis of a limb. Also, their sense of smell may be drastically affected.

Vaccination is the only sure protection against this "cough, fever, and diarrhea" disease. The Foundation said veterinarians may use one of several types of vaccine, depending on the age and condition of the dog. Annual booster vaccinations are recommended to provide complete and continuing protection.

There are no halfway measures with distemper, the Foundation for animal health said. It urged that farmers who value their dogs should have them vaccinated.

LARGE-GROWTH SHOW
BALENA, Ore., Sept. 18 — The year's traditional Oregon fair-Labor-day Hereford show saw the largest showing of Herefords in its 65-year history. Some 500 spectators watched Wayne Naultie, Nampa, judge bulls and 43 females.

AMERICA'S FARM FUTURE Depends On The Youth of Today!

Will America still be the leading food producing nation of the World in future years?

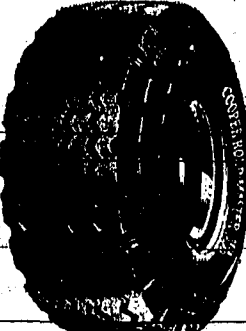

The answer lies with the younger generation coming up today... How will we succeed in training and helping our youth now to learn and love the farm... the growing of crops and livestock... therein lies the answer of how America will stand as the food basket of the World when the next generation takes over.

We owe much to our two farm youth organizations. The 4-H Clubs and the FFA in building the love of farm life into the youth of America today.

Let us salute these leaders of tomorrow today as they face the future well aware of the great responsibility that rests in their hands.

Dairy Herds Average 974 Pounds of Milk in August

Dairy cows in the Twin Falls County Dairy Herd Improvement Association during August, averaged 35.8 pounds of butterfat per cow and 974 pounds of milk, reports Twin Falls County Agent Donald Young. Production figures include all cows on test, including dry cows. The August average of testing supervisor Jack McCordick, Buhl, and Virgil Worcester, Twin Falls, showed that 2,914 cows were on test, with 2,550 in production, and 364 dry cows.

Seventy herds of over 50 cows, Chas. Graybeal, Castleford, had the high production average of 31.3 pounds of butterfat, 1,354 pounds of milk, with 60 cows milking of a total of 60. Other large high producing herds with butterfat, milk, total cows, and number in production are: Parlin Dairy, Buhl, 34.4, 934, 108 and 161; Alvin and J. Elan Sweeney, Twin Falls, 43.0, 1,251, 17, and 113; Laurens Dairy, Buhl, 41.1, 1,153, 115 and 68; Cows and Gerald Jensen, Buhl, 39.1, 1,185, 104 and 80; M. R. Coburn and sons, Buhl, 39.0, 830, 19 and 91; T. W. Richmond, Buhl, 39.0, 1,102, 78 and 65; Clyde Wright, Piler, 38.4, 1,141, 81 and 45; Grindstaff's Dairy, Buhl, 37.7, 1,274, 81 and 47; John and Jay Mische, Buhl, 37.5, 1,062, 56 and 33; Carl Harder and son, Buhl, 34.5, 84, 110 and 107; and Lawrence Kalsbehn, Piler, 34.1, 84, 9 and 52.

In the medium-size herds of 35-50 cows, Rudolph Peterson

Farmers Get Refunds From Credit Plan

WASHINGTON, Sept. 15 — Farmers were refunded 25 million dollars by the cooperative farm credit system during the year ending June 30, according to recently released figures. The

saving was 1.7 million dollars more than the previous year. Of the savings returned to users of the credit system, 6.1 million dollars were in cash dividends to farmers on their stock in 100 federal land bank associations; 5.5 million dollars in dividends and patronage refunds to farmers using the 433 production credit associations; and 10.5 million dollars in patronage refunds and allocated surplus returned to farmer cooperatives using the 13 banks for cooperatives.

Farmer investment in the credit system totaled 540 million dollars, 52 million dollars more than a year ago.

Refunds were made to: Carl Leonard, Piler, 22.4, 1,002, 18 and 14; and Charles Tippet, Buhl, 32.5, 829, 21 and 15.

FALL FERTILIZATION PAYS

There are many advantages to fall fertilization with USS Nitrogen Fertilizer:

YOU BEAT THE SPRING RUSH

YOU DON'T HAVE TO WORRY ABOUT THE UNCERTAINTIES OF SPRING WEATHER

FERTILIZER IS WORKING FOR YOU ALL WINTER LONG

YOU USE LABOR AND EQUIPMENT MORE EFFICIENTLY

YOUR CROPS GET AN EARLY START NEXT SPRING

YOU GET MORE PASTURE IN EARLY SPRING

YOU HELP PREVENT COMPACTION OF THE SOIL

YOU INCREASE YIELDS

This year, see the dealer that sells USS Nitrogen Fertilizers and learn how "The Program That Pays" can help you THIS FALL.

Cow Adjusts To World's Fair Crowd

NEW YORK, Sept. 15 — There's an old saying about you can take the boy out of the country, but you can't take the country out of the boy. That saying may be about boys, but how about with a cow?

The 10 head of Hereford cattle at the World's Fair here seem to have made the adjustment very well from a lush green range in Montana to city living on the sidewalks of New York.

These Herefords are the main attraction at the Montana Pavilion, and in fact, one of the most viewed and discussed exhibits on the entire World's Fair grounds. A number of leaders in the Hereford business in Montana, both individually and through several area associations, have backed the exhibit financially as an educational exhibit and as a promotional tool for Montana-bred Herefords to reach the hundreds of thousands of people visiting the fair from every state and many foreign countries.

A number of amusing incidents have taken place concerning cattle. "The birth of the calf heard round the world" was one of the first big happenings. On June 23, 1964, "Sally" one of the cows in the exhibit, gave birth to "Golden Nugget" just inside gate number two of the World's Fair while the corral was lined with curious onlookers, TV cameramen, radio and newspaper reporters and photographers at 4:19 p.m. Paul Peterson announced "It's a boy."

This incident led to many more. Fifty underprivileged youngsters from New York's Lower East Side, most of whom had never seen a cow before, came to the fair as honored guests at a birthday party... a party for Sally, the proud mother cow. These 50 youngsters brought gifts for Sally and the calf. In the packages were such useful items for a country cow who had come to town as apples, cookies, carrots, corn-on-the-cob, miniature cowbells, a foot-long toothbrush, nail polish and combs.

Montana pavilion manager, Ott Tschache, opened the packages for Sally.

FANT ACHIEVEMENTS of Bert Brackett, left, are examined by George Carnie, Hagerman high school superintendent, center, and Darrell Hatfield, new Hagerman high school vocational agriculture instructor. Young Brackett is competing for the American Farmer degree in National FFA. (Times-News photo)

Hagerman FFA Student Competes for National American Farmer Degree

HAGERMAN, Sept. 18—Achievements in the Future Farmers of America organization don't end with high school graduation. In fact, many of the organization's highest honors are acquired after the student has completed high school education. One of those high honors, the American Farmer degree, is the goal of Bert Brackett, son of Mr. and Mrs. Roy Brackett, who is now attending the University of Idaho, studying animal science. Brackett's award actually started in August of 1958 when he enrolled in vocational agriculture at Hagerman high school. His activity both in the

Approved
Ralph W. Edwards, agricultural education state supervisor, reports he has received information from board of student officers and FFA headquarters that the directors of the national organization have reviewed the Idaho applications and will recommend to the delegates at the convention that the three boys receive the coveted American Farmer degree. Approval by these boards usually is tantamount to election by the delegates. The three Idahoans are Bert Brackett, Hagerman; Gary Pratt, Blackfoot; and Roy Barna, Emmett.

classroom and on the farm determined largely how far he would go in the FFA. In FFA work there is particular emphasis on records. Accurate records are a must in the organization. Brackett's project started with 25 head of cattle and calves and 750 sheep. The original beef herd has been built up to 80 head. He originally started out

Mustard

HANSEN, Sept. 18—Lavern Anderson, and Clarence Degner, who farm near the foothills southeast of Hansen, threatened approximately 20 acres of mustard seed, which made between 500 and 600 pounds to the acre. One field, they felt, lost them some seed in uneven ripening, however, the other field was good. They were disappointed to some extent as they had hoped it would reach about a ton of seed to the acre. The crop does not require too long a growing season, but if it could have been planted sooner, it would have matured in August. The price—presently quoted is 11c per pound.

Milk Cow Total Continues Slump

WASHINGTON, Sept. 18—This year, as in 1953, the number of milk cows was down 2.0 per cent from the year earlier. The decline was fractionally larger than the 2.7 per cent average since 1953. Production per cow in 1964 was expected to gain about 250 pounds above last year's 7,545 pounds. The September estimate by the U.S. department of agriculture of the number of cows in June was 15,072,000. The June estimate of cow numbers has been about the same as the average number for the year, over the past 25 years—the difference being less than one-tenth of one per cent.

Event Slated

FAIRFIELD, Sept. 18—The Camma county soil conservation district is making plans for a dryland tillage field day on Sept. 24, according to conservationist Leo Senften. The program will consist of the demonstration of the different dryland tillage implements by most of the leading companies. There will be a discussion on dryland tillage problems and snow mold. The time and places will be announced.

Corn Total

NOISE, Sept. 18.—The 1964 production of sweet corn in Idaho is estimated at 66,700 tons, compared to the 1953 total of 74,000 tons and the five-year average of 68,300 tons, says the crop reporting service.

USDA Schedules Series of Meetings To Discuss New Standards for Wheat

SAN FRANCISCO, Sept. 18.—The United States department of agriculture has scheduled a series of three informal meetings in the Pacific Northwest to discuss with wheat growers application of the revised U.S. quality standards for wheat to the crop produced in the region.

Herschel B. Ellis, grain inspection area supervisor, agricultural marketing service, Portland, Ore., said the meetings will be open to wheat growers and others interested in attending. They will be conducted by AMS grain marketing specialists and local extension service personnel to discuss problems involved with the revised wheat standards and possible solutions to them.

Locations and times are Pendleton, Ore., Sept. 21, in the Vert Little Theater; Postello, Sept. 23, in the Hancock hotel, Campanopolitan room, and Spokane, Wash., Sept. 25, in the Davenport hotel, Marie Antoinette room. Meetings will begin at 9 a.m., local time, each day.

The revision in official U.S. wheat standards affects all classes of wheat, including white wheat—the principal class grown in the Northwest. In general, revised standards reduce the amount of nonmillable material permitted in wheats of the several grades.

Ellis said there have been some complaints from wheat interests in the Pacific Northwest that new-crop wheat would grade lower under revised standards because of the smaller amounts of wheat-of-nonmilling—allowed permitted in the top grades. Contrasting classes are those that are readily distinguishable from the principal class being graded, such as hard red winter wheat in white wheat.

Ellis said reports from inspection laboratories indicate that the problem of contrasting classes is serious only in a few localities in the Northwest. Generally, these are areas where farmers have recently shifted from growing hard red winter wheat to white wheat or are growing both.

Reports from areas of Idaho

Wheatgrass Seed Total Decreases

NOISE, Sept. 18.—Created wheatgrass seed production in Idaho this year was forecast by the U.S. agriculture department at 245,000 pounds, 15 per cent less than 1953.

However, production at that level would be more than one-third greater than the five-year average, the report said. Yield was estimated at 70 pounds per acre, the same as 1953, but greater than the five-year average of 55 pounds.

The 1964 Austrian winter pea crop for the state was estimated at 53,200,000 pounds, that would be 10 per cent less than last year but well above the five-year average of 43,040,000 pounds.

FIRE DAMAGE HIGH

WASHINGTON, Sept. 18.—Farm fires cause six times as much damage per fire as city fires, with fire and lightning losses destroying 191 million dollars worth of farm property in 1963, says USDA.

Idaho Onion Harvest to Exceed 1963

BOISE, Sept. 18 — Idaho is expected to produce 1,070,000 hundredweights of onions during 1964, according to last year's crop, and 35 per cent greater than the 1958-62 average. The estimated yield for 1964, at 415 hundredweights per acre, compares with 400 hundredweights last year and 424 hundredweights for the five-year average.

Weather conditions throughout the season have not been favorable for Idaho's onion crop. Planting delays, disease, and cool wet weather have resulted in smaller onions in many areas.

Infestations of pink root, purple blotch, and mildew have been more prevalent than usual in many areas. Harvest should be well under way by the second week of September.

Production for the combined Idaho-eastern Oregon area is placed at 2,551,000 hundredweights. This compares with 2,528,000 hundredweights produced a year ago and the 1958-62 average production of 2,166,000 hundredweights.

Onion production nationally in the late summer states, at 17,604,000 hundredweights, is six per cent less than last year and two per cent below average.

Idaho Range Condition Is Over Normal

BOISE, Sept. 18 — Range feed conditions throughout the state remained above average on Sept. 1, according to the crop reporting service. Seasonal drying continued on low elevation ranges, especially throughout south Idaho.

Nearly all areas of the state report ample water supplies and good forage growth. Fall grazing prospects appear good in nearly all areas. The reported condition of 84 is three points below a month ago but six points above the 1958-62 average for Sept. 1.

The condition of cattle at 88 shows a seasonal decline of one point from Aug. 1, but is still three points above the five-year average for Sept. 1. Most range cattle remain on higher elevations, summer ranges but some movement to lower areas has begun. Marketing of cattle and calves has been relatively inactive.

The condition of sheep at 87 shows a normal one point decline from a month ago, but is still three points above the five-year average for this date. Marketing of lambs has been moderately active. Summer ranges are good to date is running ahead of the last few years.

Ranges in the northern Intermountain states continued to provide good forage and some supplemental feeding and overgrazing was not reported. Lower ranges were curing but supplying adequate feed in all areas. Moisture would be beneficial in sections of Utah and Nevada to promote late fall ranges.

Range fires destroyed grasslands in northeastern sections of Nevada. Arizona ranges improved sharply during August because of above average precipitation. Fall and winter grazing prospects are good to excellent. Grazing conditions were good at high elevations in those states bordering the Pacific Coast.

Cattle and calves nationally were maintained in good condition. Satisfactory summer weight gains were made although overgrazing was the only feed available in some areas. Some supplemental feeding and overgrazing was necessary to maintain livestock in dry areas. Green grass was still available in many high elevation ranges and some supplies were plentiful on Sept. 1. Fall marketing and contracting to date were running slightly behind the last three years.

Gains made by sheep and lambs have been good except in drought areas of west Texas. Good summer grazing has been available at higher elevations. Some movement to lower ranges was underway on Sept. 1 in a few areas. Marketing and contracts for later delivery have been active this fall, running ahead of the previous five years.

HOLDING TROPHIES they were presented for taking first place in Magic Valley livestock judging held during the Twin Falls county fair are members of the Castleford team. Trophies were presented to first place and second place winners. Members are, from left, David Reese, Garry West and Darol Brown. (Times-News photo)

Iowa Economist Says U.S. Research Service Should Assist Farm People

WASHINGTON, Sept. 18 — An Iowa economist says the nation's agricultural research programs have put too much emphasis on plants and animals and too little on people.

The comment comes from Early O. Heady, executive director of the Iowa State University center for agricultural and economic development.

Heady says land grant college researchers should give more emphasis to studies aimed at helping the families who are being squeezed out of agriculture. He said the nation's agricultural colleges have just as much responsibility to these families as they have to help families who remain in agriculture.

His statement comes in an article in the current issue of "Agricultural Science Review." This quarterly publication is issued by USDA's cooperative state research service.

Common Mart to Support Butter

WASHINGTON, Sept. 18 — Adoption of a price support system for butter will be basic for the common dairy market scheduled for inauguration on Nov. 1 in the European economic community.

The dairy market will be controlled to a great extent by intra-community levies on butter. It was stated. The system will fix the time, the price and the conditions under which butter can be withdrawn from the market and placed in stock by both private and public agencies.

The EEC gross national product was about 200 billion dollars in 1961, of which 22 billion dollars were agriculture. Of this 60 per cent resulted from livestock.

Bluegrass Seed Total Increases

BOISE, Sept. 18 — Production of Merion bluegrass is expected to be greater than in 1963 according to the crop reporting service.

Production of Merion Kentucky bluegrass seed is placed at 632,000 pounds, compared to 600,000 in 1963 and the 1958-62 average of 467,000 pounds.

The increase from last year is a result of both greater acreage harvested and higher yield per acre. Repeated delays in harvest have been experienced due to wet weather. As a result, there was still some Merion bluegrass acreage not harvested at the end of August.

No estimate was made this year for red fescue due to the limited acreage for seed in 1964. National production of Merion Kentucky bluegrass seed in 1964 is forecast at 3,017,000 pounds. This is nine per cent more than last year's revised production estimate of 2,760,000 pounds and 14 per cent more than the 1958-62 average production.

Harvested acreage and production were larger this year in Idaho and Washington but lower in Oregon and California. Yields were also expected to be higher in Idaho and Washington and lower in Oregon and California. Growing conditions have been generally favorable for the production of seed, however inclement weather prolonged the harvest.

Carryover on June 30, is estimated at 1,463,000 pounds compared with 1,223,000 pounds a year earlier.

Initial supply is indicated to be 5,080,000 pounds, three per cent below last year but 19 per cent above average.

Imports of Merion bluegrass seed between July 1, 1963 and June 30, 1964 were 827,000 pounds.

Production of Chewings fescue seed in Oregon this year is forecast at 7,200,000 pounds, 20 per cent more than the revised estimate of 5,900,000 pounds in 1963, but 18 per cent less than

the 1958-62 average. Harvesting from the same number of acres as last year, growers expected yields to average 450 pounds per acre compared with 350 pounds in 1963.

This year's production of Red Fescue seed in Washington and Oregon is forecast at 4,000,000 pounds compared with 3,163,000 pounds in 1963 and the average of 4,405,800 pounds. Both acreage and yield per acre were higher this year than last in the two states. While growing conditions were favorable, harvest was prolonged by wet weather.

Carryover on June 30 this year totaled 3,600,000 pounds, down 22 per cent from last year's carryover and 46 per cent below the 1958-62 average carryover.

Initial supply is indicated at 7,760,000 pounds, one per cent less than the supply available a year earlier.

Democrats

Make Pitch To Farmers

WASHINGTON, Sept. 18 — Democrats have set up a new campaign committee to drum up votes for the Johnson-Humphrey ticket in rural areas. The group will make a special pitch for the support of non-farm voters in rural towns.

The campaign group calls itself "Rural Americans for Johnson and Humphrey." Its executive director is Donald A. Norberg, who resigned recently from a post in the agriculture department.

Norberg says the organization hopes to make broader appeal than the farm campaign committee used by both parties in the past. The new group, in addition to appealing to the farmers, will try to appeal to voters in small rural towns.

Norberg told newsmen that about 150 people from all parts of the country have agreed to serve on the new committee. A formal announcement of the membership is expected next week. It will include the names of Clyde Ellis, a top official of the National Rural-Business-Coop association, and Farmer Union President James Patton.

Democratic leaders are reportedly still reviewing possible candidates for the chairmanship of the group. Informed sources said

the job might go to Robert H. Scott, Democratic nominee for Cardin.

Something New! Something Big!

The All New "WESCON Sugar Beet Harvester"

Don't wait until the last minute, act now! The wise grower takes the time to compare, and then selects the machine that will provide the best return on his investment.

Your WESCON Dealer will be happy to give you the facts about "speed of operation" in the field, low maintenance requirements, the value of harvesting CLEAN beets with absolute minimum tare, increased yields and most important of all, the INCREASED PROFITS that the grower will realize by harvesting his beets with a WESCON Sugar Beet Harvester.

FARMERS! Would you like to realize from 30.00 to 75.00 more per acre from your sugar beet crop?

You can do this with a WESCON two or three row beet topper —

Beets are "custom" topped in record time and nearly full recovery of dirt-free tops is common — this is a sure way of adding to your beet crop profit!

VISIT US TODAY — We will be happy to give you complete facts on operation, performance and increased profits!

Farm Labor Force Falls Below Normal

BOISE, Sept. 18—An estimated 100,000 persons were employed on Idaho farms during the week of Sept. 18, 1964, reports the crop reporting service. This is 3,000 more than were employed during the same week last year, but less than the 1958-62 average of 103,000.

Family workers, including farm laborers, totaled 55,000 persons, or 55 per cent of the total. This compares to 53,000 for the 1958-62 average for August.

Parm activities were mostly limited to south Idaho during the survey week. Rain, fell throughout most of northern Idaho, caused a general delay in farm work.

Major work in southeastern and eastern Idaho included, summing of grain, irrigating, summing of following and seeding of fall crops.

ON HAND AT the actual moment of ribbon cutting at the new research and test center of the J. I. Case company are, from left, Samuel H. Payne, board chairman; Merritt D. Hill, president, and Raymond J. Miller, engineering company vice president. Hill is a former Jerome and Twin Falls resident.

Utah-Idaho Sugar Expects To Harvest Record Crop

IDAHO FALLS, Sept. 18—Harvest of the largest crop of sugar beets ever grown in eastern Idaho will begin Oct. 1, according to Lloyd V. Olson, district manager for Utah-Idaho Sugar company.

Cropmen will harvest an estimated 735,000 tons of beets from 50,000 acres under contract to U and I and Layton Sugar company, a subsidiary, this year. The 1963 harvest, which was a record at the time, was 622,820 tons. In terms of tons per acre yield, the 1964 crop is expected to be above average although probably below the 1963 yield per acre. U and I has contracts with 706 growers in Idaho.

Weather conditions were adverse last spring, Olson said, but he noted that the overall performance of chemical weed control was of material aid to the crop in Idaho during the season.

A 2.5 million dollar expansion program at the U and I factory near here is nearing completion. The campaign, or work season, at the factory is scheduled to begin Oct. 4 and will run about 140 to 145 days, approximately the same as last season.

The factory has been expanded 33 per cent, from 3,000 tons of sugar beets daily to 4,000 tons. The most noticeable change at the factory is construction of two huge silos for storage of bulk sugar. Each of the huge bins is capable of storing the equivalent of 125,000 bags of sugar weighing 100 pounds each, or a total of 25 million pounds of sugar. In both of them, The silos, which are 140 feet high, are made of reinforced concrete.

A rare instruction procedure school will be held at the factory two days prior to the start of campaign for personnel involved in that phase of the operations.

Companywide, the 73-year-old Utah-Idaho Sugar company expects to process approximately 2,600,000 tons of sugar beets grown under contract by farmers in Washington, Idaho, Oregon, Utah, South Dakota and Nebraska.

Supply Boost Expected in U.S. Poultry

CHICAGO, Sept. 18—Increased supplies are expected to have a lowering effect on prices of turkeys, eggs and broilers during the October-December quarter of 1964 according to a report made by the Poultry Survey Committee.

Composed of five leading college economists and sponsored by the American Feed Manufacturers association and the National Turkey Federation, the committee predicted that U.S. farm turkey prices during October-December will average about 22 cents a pound—nearly a year's low—under earlier levels. Supplies during the period are estimated to be around four per cent above a year ago.

Both layer numbers and rate of lay are expected to bring increased supplies of eggs during the 12 months starting Oct. 1, 1964 the committee reported, and they estimated U.S. farm egg prices to average about one to two cents below the same period of 1963.

Broiler prices during the first half of 1965 are expected to average about one-half cent above the year's earlier period, the report stated, but U.S. farm broiler prices during October-December will average near 13.5 cents—about one-half cent lower than the same period of 1963.

Nut Consumption 1.8 Pounds

WASHINGTON, Sept. 18—Per capita consumption of tree nuts in the United States during 1963 totaled 1.8 pounds, followed by walnuts and almonds. Peanuts were a poor fourth.

The agriculture department said each person consumed 0.37 of pecans in 1963. The per capita intake of walnuts was 1.3 pounds, almonds per person consumption was 0.22 pound, the filbert consumption was 0.1 pound per individual. Macadamia nuts—grown in Hawaii—were plentiful enough to provide a per capita consumption of 0.01 pound.

New Center Opened by Case Firm

RACINE, Wis., Sept. 18—The J. I. Case company has dedicated its new research and test center to the future of agriculture.

As he cut the ribbon revealing a plaque near the entrance doorway to the new center, Merritt D. Hill, Case president, dedicated the "building to the future progress and advancement of the J. I. Case company, its products, and its people."

In a brief talk prior to the ribbon cutting Hill told the audience attending the event—"This day marks the attainment of a very important milestone in the history of the J. I. Case company. Here, in this building, for the first time in the company's 122-year history, are centralized facilities for thoroughly testing products before they are introduced to the customer. Try now we've had test facilities, but not until this building was erected did we enjoy the efficiency of centralized operations."

Grassman Tour Set in Lincoln

SHOSHONE, Sept. 18—The Lincoln county Grassman of the Year tour will be held Sept. 25. The tour will begin at 9 a.m. from Shook's corner, four miles north of Shoshone.

Blen Prostenen, Quinn Rich and Everett Coats, ranchers of Camas county, will serve on the panel of judges. J. A. Oederquilt, representative, Twin Falls, will be the tour host judge.

All farmers, ranchers and businessmen are invited to attend the tour.

Sales Volume Is Listed by USDA

WASHINGTON, Sept. 18—The agriculture department said the sales volume of new super markets opened in 1963 averaged \$37,600 per week, or at a two million annual rate. This volume rate was determined by an industrial sample survey of 102 new supermarkets.

The department said these stores averaged 19,000 square feet in area, so sales per square foot averaged \$2.57.

50 PROJECTS LISTED

CHICAGO, Sept. 18—Urban, suburban and rural boys work together in 4-H clubs. They have a choice of nearly 50 projects ranging from electricity to livestock, says cooperative extension service.

Farm Outlook Continues to Deteriorate

BOISE, Sept. 18—The overall outlook for farm production in Idaho decreased during August, largely because of cool weather, the U.S. department of agriculture reports.

"Decreases for spring wheat, potatoes and hops more than offset improved prospects for winter wheat, barley, sugar beets, dry peas and apples," the department said. "All other crops remained unchanged from a month earlier."

"The combined index of crop production—based on relative economic value in 1947-48—now stands at 185, compared with 187 last month and 189 for 1963."

The department said farm employment in Idaho in the survey week of Aug. 23-29 was estimated at 90,000, down from 93,000 a month earlier. The August total was 3,000 more than in the corresponding period a year earlier, however.

Protein Can Aid Drought Area Cattle

NEW YORK, Sept. 18—With range feed conditions continuing to deteriorate in 15 Western states, livestock nutritionists are urging pasture protein supplementation as an aid to drought-stricken beef, dairy and sheep producers.

The department of agriculture recently reported that ranges are the poorest since 1955. Texas, Oklahoma and Arkansas are most severely affected.

Feed Service Corporation, Grete, Neb., points out that ruminant animals should have a 12.5 per cent protein ration for best production. By feeding a liquid supplement in free-choice feed units on rangeland, animals can balance their own protein intake as pasture varies in quality.

As grass matures and begins to dry up, consumption of the supplement increases. In the spring, when forage quality is high, liquid feed intake is very low, the authorities stated.

Red Meat Total Rises in Idaho

BOISE, Sept. 18—Red meat production by Idaho commercial slaughter plants during July was estimated at 14,693,000 pounds or two per cent more than June and one per cent more than July of 1963.

The accumulative production of red meat for January through July this year totaled 97,718,000 pounds or four per cent more than the same period a year ago.

Red Meat Total Rises in Idaho

BOISE, Sept. 18—Red meat production by Idaho commercial slaughter plants during July was estimated at 14,693,000 pounds or two per cent more than June and one per cent more than July of 1963.

The accumulative production of red meat for January through July this year totaled 97,718,000 pounds or four per cent more than the same period a year ago.

PCA LOANS are made for the express purpose of aiding Farmers and Ranchers to produce more efficiently.

TYPICAL OF the caliber of horses needed to win horse shows in southern Idaho is Joonyer Jess, a registered quarter horse stallion, with Wayne Peterson up. Horse interest has been high in the Magic Valley and the large amount of horses being shown in the area, plus the demand for high quality animals, is pushing the local horse business to all-time highs. Joonyer Jess recently won the all-around performance horse award at Frontier field and the Idaho Quarter Horse association performance class at the Twin Falls county fair. The horse is owned by Mr. and Mrs. Charles Sutton, Twin Falls.

Record Number of Sheep Sold at Fat Stock Sale of Minidoka Fair Winners

RUPERT, Sept. 18 — A good crowd attended the 4-H and FFA fat stock sale Monday morning at the Valley Livestock Commission company. The sale was sponsored by the agriculture committee of the Rupert Chamber of Commerce, with Henry Dockter, chairman.

According to Lamont Smith, Minidoka county agent, a record number of sheep went into the ring. Fewer entries were reported this year as youngsters were limited to one animal in each division. Only animals receiving either blue or red ribbons at the Minidoka county fair were eligible to be auctioned at the sale.

The grand champion sheep owned by Jerry Scott was bought by Shelby's Wood market in Burley for \$65 per hundredweight. The grand champion FFA beef owned by Mike Higley, Paul, also went to Shelby's market at \$62 per hundredweight. Rickie's Shurt sold his grand champion ewe to Ballantyne's market for \$5 per hundredweight.

Other 4-H and FFA members who sold their fat stock in the sheep division, price and purchaser, include Judy Mohlman, \$65 per hundredweight, to Idaho First National bank.

Averages for Dairy Cows Are Reported

GOODING, Sept. 18 — Dairy cows on production testing in Gooding, Lincoln, Jerome and Hoot Improvement Association No. 1 during August averaged 38.5 pounds of butterfat per cow and 1,008 pounds of milk, reports Sam R. Gardner, tester from Gooding.

The production figures include all cows on test, including dry cows. The report showed that 873 cows were on test, with 788 cows in production and 84 cows dry.

Herds tested for butterfat, total pounds, and number in production are: Jerry Westendorf, Gooding, 320, 1,930, 8, 8; R. W. King and son, Wendell, 81, 1,356, 24, 33; Bob Tupper, Hagerman, 48, 1, 420, 11, 47; George Carlock King, Hill, 44, 1,384, 12, 11; Royce D. Adams, Gooding, 430, 1,270, 28, 28; Kurt Westendorf, Gooding, 42, 1,384, 18, 12; Emmett Lamb, Gooding, 41, 1,138, 23, 19; Dale Eden, Bliss, 41, 1,221, 16, 16; Robbie Meyer, Gooding, 40, 4, 900, 4, 4.

Johnson farms, Richfield, 40, 1,146, 71, 82; Wood brothers, Bliss, 36, 1,002, 63, 57; Jay Brown, Gooding, 38, 1,000, 46, 43; C. F. Lehman, Wendell, 38, 1,065, 58, 37; Kirk Hays and son, Wendell, 36, 1,047, 51, 28; Frances Simpson, Glenn Ferry, 36, 1,017, 11, 9.

Phares and Bob Schiffer, Wendell, 34, 1,028, 21, 20; V. F. Morlan, Wendell, 34, 1,040, 37, 37; Harvey Wood, Gooding, 34, 1,001, 13, 13; Glen and Larry Wright, Wendell, 34, 1,088, 17, 14; C. W. Adams, Hagerman, 33, 1,043, 57, 51; Frank Jones, King Hill, 33, 1,065, 50, 48.

Farm Plan Is Failing, Says Solon

WASHINGTON, Sept. 18, AP — The chairman of the senate agriculture committee says the government's farm support programs are in trouble. He is asking for new ideas from experts at the nation's agricultural colleges and farm organizations.

Committee Chairman Allen J. Ellender, R-La., announced that he had written all the land grant colleges asking for suggestions for new farm programs. Ellender's letter said: "Existing programs for several farm commodities appear to be in trouble. And aside from that, the programs are very costly. At this point, none of the alternate programs discussed in the past appears to have enough support to win approval in Congress. Ellender pointed out that Congress will have a big farm job on its hands in 1965. It will be faced with the need to extend or replace programs for commodities including cotton, wheat, feed grains, and wool. The senator said it seems necessary to have a complete farm program. He is asking agricultural college experts to give his committee their suggestions by early next January.

Lynn Rogers, \$45.50, Burley Coop Supply; Einar Bryngelson, \$38 per hundredweight, Safeway store; Danny Rogers, \$36, Smith Oil company; Sherry Bryngelson, \$25.50, Alec Mal; Ricky Rogers, \$36, Smith Oil company; George Olund, \$38, Armour and company; Buhl and Harry Etchevery, \$40, Rupert Iron Works.
